0201 0402 0603 LED Light Making Machine SMT Mounter With Docking Cart IC Tray Feeder

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: YT202S
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: One Year
- Condition: New
- Speed: 80000 CPH
- Applicable Components: 0201,0402,0603
- Application: Led Lighting Industry, Electronic Products, Etc.
- Display: Touch Screen Monitor
- Software: R&D Independently
- Core Components: Motor, Industrial Control Computer
- Highlight: 0201 LED Light Making Machine, 0402 LED Light Making Machine, LED Lights SMT Mounter

Product Description

LED Light Making Smt Mounter With docking cart, IC tray feeder LED Making Machine

Product description

YT202S SMT pick and place machine, The theoretical speed of YT202s is 80000 CPH, First of all, from the appearance of the machine, these two modules are roughly the same. The biggest difference is that yt202s has two mounting heads. When the machine works, they work for two different PCBs respectively. Two products can be produced at the same time. One side stops working and the other side continues working. They are controlled independently. Very intelligent. the main guide rail of yt202s is also a high-end magnetic linear motor. it has high accuracy.

Feature--YT202S

- Adopt high-speed multi modular head, apply to ultra small chip 0201~40*40mm large chip, wider component range.
- Each module 10 spindles, both high-speed and intelligent with light compact design.
- Improve recognition performance, size up to 40*40mm, apply to BGA or CSP etc
- Each placement head with independent detection function, which improves the stability of the equipment and the reliability of the product.
- Adopt high-end magnetic linear motor, servo system and multi function modular head, the capacity increased by 25% compared with traditional machine, optimum placement speed reach 80000CPH

Main Parameter

| | |
|------------------|--|
| PCB size | Max size:500mm*450mm(single PCB) 500mm*300mm(double PCB) Min size: 50mm*50mm |
| PCB thickness | 0.5-4.5mm |
| PCB clamping | Cylinder clamping, track width adjustable |
| No. of camera | 4 sets/Bottom vision camera recognition |
| Repeat precision | ± 0.02mm |
| Mounting speed | 80000CPH(Optimum speed) |
| Components range | Min 0201 ~40*40mm Tape reel packages and IC tray feeder etc. |
| Position mode | Optical |

Machine application

YT202S is high-end mounting machine, support for mounting 0201-40*40mm tape reel package and IC tray feeder. The finished product like the household appliance driver board, tv display board, complicated BGA, Transistor, SOP, VR, CSP, QFP,TSOP mounting.

Service

Maintenance period 1 year

One year warranty. during warranty. any parts that need to be repaired and replaced will be free.

Software and hardware lifetime maintenance

Free upgrade software, the software is Reach and developed by ETON, so we support whole lifetime free upgrade updates.

Visit customers regularly and gather information

Visit clients regularly. We attend the different exhibition in different cities every year, at the same time, we will visit local clients and support our service and collect feedback on customer suggestions in time.

Provide the latest information about technology and equipment

We give professional technology suggestions to our clients. And share the updated news with our clients

On-site service

We have some official site in India as Mumbai and New Delhi, also have site in Egypt, Turkey that can provide service timely with our engineers.

According to your needs, dedicated senior engineer will come to your factory for free install and training you how to operate the machine.

FULL SMT LINE SOLUTION SUPPLIER---ETON

| | | |
|---|---|--|
|  |  |  |
| Core Technology Independent R&D | >52000M ² Manufacturing Center | >100 sets/month Large-scale Production Capacity |
|  |  |  |
| >500 Staffs China Top One in SMT Industry | Rich Industry Experience Full SMT Line Solution Support | >135 Patents Invention & Software & Practical |
| Global Service Office: India · Turkey · Vietnam · Egypt · Pakistan | | |
| <ul style="list-style-type: none"> ■ Professional solutions: Provide professional SMT Full line solutions ■ Free Warranty: One-year warranty factory service. All parts damaged within the warranty period shall be replaced free of charge ■ Free Installation: On-site free installation to ensure smooth production. ■ Free Technical Training: Professional training of operating and maintenance. ■ Free Technical Support: 7 * 24 technical online support. ■ Free Software Upgrade: Offer free software upgrade whole lifetime | | |

RFQ

Q: What is your actual speed of your products?

A: For the actual speed of the machine which is constrained by many factors, that related to the number of the components, the time to send PCB board and receive the board that will have influence on the speed when in production, and is decide for the actual products and needs.

Q: Can I go and see if you have sold the equipment to India?

A: Yes, we have sold our machine in India, but for the fact we can't decide it for our customer, but I will try to contact our customer. Hope you can understand, because no one wants their competitors to visit their manufacturing site.

Q: It's hard to use the machine?

A: Machine is very intelligent and easy to operate, like the intelligent phone, also the software is made by our company, so we know how to make it more intelligent and operate friendly.

Q: How is the breakdown rate of machine?

A: Our machine is very stable, the breakdown rate is less than 0.001.

Q: What's the terms of payment? What about the trade term?

A: T/T is OK. You can choose FOB Shenzhen.

Q: What is the difference between dual module and single module?

A: The dual module has one more module than the single module, which has more capacity and faster efficiency.
