

12 Heads SMT Mounter LED Bulb Assembly Machine With Windows

7

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE , ISO , CCC
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1 unit
- Price: USD 45000-67500 per set
- Packaging Details: Vacuum wooden packing
- Delivery Time: 15-30 days
- Payment Terms: T/T, L/C
- Supply Ability: 50 Unit per month

Product Specification

- Name: Pick And Place Machine
- Brand: ETON
- Model: HT-E8S-1200
- Heads: 12 PCS
- Feeder Station: 28 PCS
- Feeding Way: Electric Feeder With Double Motor
- Highlight: 12 Heads SMT Mouter, Double Motor SMT Mouter, 45000 CPH LED Bulb Assembly Machine

Product Description

12 heads SMT mounter for LED Bulb assembly machine with windows 7

Technical parameter

Vision alignment flight identification, mark correction

Auto-optimization after coordinates generated

Apply to different kinds of SMD components: LED chip, capacitors, resistors, IC, RGB, shaped components, etc.

Component : Min.size 0402 Max.height 15mm

HT-E8S Technical Parameter	
1	Length*Width*Height 2550mm*1650mm *1550mm
2	Total Weight 1700kg
3	PCB Length Width Max:1200*350mm Min:100*100mm
4	PCB Thickness 0.5-5mm
5	PCB Clamping Adjustable pressure pneumatic
6	Mounting Mode Group picking and separate placing, separate picking and separate placing
7	Software R&D independently
8	Display Touch screen
9	Input Device Keyboard, Mouse
10	No. of Camera 2 sets of imported camera
11	Position Camera Vision for the flight identification + MARK correction
12	Mounting repeat Precision ± 0.04 mm chip
13	Mounting Height <15mm
14	Mounting Speed 45000 CPH(optimum)
15	Components LED chip, capacitors, resistors, IC, RGB, shaped components etc.

SMT solution

ETON over 10 years experience in SMT machines, so we are very professional to provide whole line solution.

Automatic stencil printer machine with pick and place machine, loader, conveyor, unloader, reflow oven to be one automatic line.

Automatic line save much labor cost compared with the semiautomatic line, also with higher printing precision could produce high quality electrical products. Here are the automatic SMT line solution layout:

ETON - HT-E8S-600 Semi-automatic Production Line

APPLICATION: Apply to the DOB, bulbs, flexible strip, tube, tube, display, electric board, all kinds of driver, etc. 8 nozzles working at the same time, high productivity.

Company profiles

In 2007, Established Taipei R&D Center and began to develop placement machines

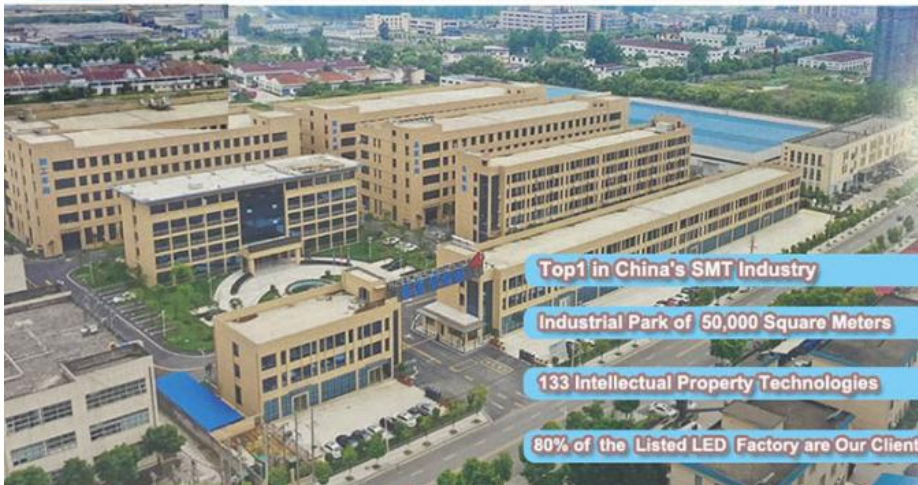

In 2015-2017, HT-T7 (high speed pick and place machine) / HT-E9 (multi-function machine) was completed R&D and began selling.

After 2018, HT-E5S/E5D, HT-E8S/E8D (new magnetic linear motor multifunctional placement machine) was completed R&D and began selling.

ETON has invented the fastest automatic pick and place machine with speed 250000CPH. We got large market share in USA, KOREA, INDIA, GERMANY, TURKEY more than 20 countries. We expanded our plant and built a new bigger industrial park in Jiangxi Province.

ETON have modern self-owned industrial park with 52,000 square meters. More than 500 employees, We have strong manufacturing capabilities. The annual sales scaled over 800 million yuan.

ETON smt machines for led production line. all kinds of pick and place machine, conveyor, uploader, stencil printer, reflow oven and so on.

Top1 in China's SMT Industry

Industrial Park of 50,000 Square Meters

133 Intellectual Property Technologies

80% of the Listed LED Factory are Our Client

ETON Company

CNC Workshop
Powder Spraying Polishing

Pick and Place Machine
Assembly Workshop

Full SMT Line
Solution Showroom

Excellent R&D Team

Professional Sale Team

133 patent certificates

Packing

All machines are packed with vacuum and wooden packing like the one in the pictures.

Shipping: --- We ship to world wide from china mainland using air mail by EMS, UPS, DHL or TNT or as your request for parts.
--- Sea shipping for machine.

Packing and Delivery

Step one: packing the machine with foam cotton and stretch film to protect the outside of the machine

Step two: Vacuum packaging; put the desiccant in a vacuum bag to prevent moisture; use straps to secure the machine

Step three: professional wooden box packaging
