

P6 Two Gantry SMT Mounter Machine 90000 Cph For Advertising LED Display

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC/CE
- Model Number: YT20

Product Specification

- Machine Name: Led Display P6 Mounter Machine
- Warranty: 1 Year
- Application: Led Display
- Speed: 90000 Cph
- Highlight: Advertising LED SMT Mounter Machine, led chip SMT Mounter Machine, 90000 Cph LED Display Making Machine

Product Description

Advertising led display P6 SMT making machine.

LED display chip mouter machine

YT202 is the two-gantry mouter machine, function is mounting led chip on the PCB. Widely apply to the led chip from mini 0201 tiny chip components. It's most big features is could make two display at the same time. So the capacity is double than the normal single module mouter machine.

Besides, the whole machine structure is using the high-end magnetic linear motor, high stably working performance.

Support many intelligent functions, like the CAD file input for the coordinates programming. The High precision vision camera guarantee the mounting precision and avoid wrong placement.

Advertising led display

Advertising display is widely apply to many cases, like the shopping mall, the exhibition, the company show, common show in everywhere we live.

Here are the indoor led display and outdoor led display. The product is different precision between two types display. Like indoor display is normally require higher precision mouter and the printer machine.

Main machine parameter

Machine name	Automatic printer machine
Machine model	ET-5235
Machine function	Printing solder paste on PCB
Max PCB Size	520*350mm

Machine name	Pick and place machine
Machine model	YT20
Machine function	Placement led SMD Components on board
Max PCB Size	500*300mm
Capacity	90000 cph

Machine name	Reflow oven/Soldering oven machine
Machine model	ET-R8
Machine function	Soldering components with pcb
Rail width	350mm

Advertising Display SMT Production Line

FAQ

What is the spare part will you supply?

A: Machine is good quality, we will equipped with the good and enough spare parts. But will not included the feeder and nozzles, these are the daily tools for using mouter machine

Could I visit your factory with my engineer?

A: Yes, we are in Shenzhen city, near airport, welcome visit us.
