24 Heads 90000 CPH LED Bulb Making Machine LED Light Pick And Place Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: HT-E8D
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum package, wooden case
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets/month

Product Specification

- Warranty: 1 Year
- Applicable Components: 0402
- Name: SMT Pick And Place Machine
- Power Supply: 380AC 50HZ
- Condition: New
- Weight: 2500KG
- Mounting Speed: 90000cph
- Feeders: 24
- Pcb Thickness: 0.5~5mm
- Highlight: separate placing LED Bulb Making Machine, MARK camera LED Bulb Making Machine, LED Light Pick And Place Machine SIRA

Product Description

24 heads 90000 CPH LED Bulb Making Machine With Multifunctional

Product Description

I HT-E8D-1200 is a dual-mode magnetic multifunctional high-speed LED SMT mounter.

I The dual-mode group of this model is controlled by two systems, which means that two PCB boards can be produced at the same time.

I Magnetic levitation linear motor is adopted. Compared with the servo motor used in most products on the market, this one has longer service life, higher precision and better mounting effect.

I Multi function LED SMT mounter means that this machine is a universal machine, which can be applied to a variety of different LED lamps, such as LED bulb, DOB bulb, street lamp, down lamp, ceiling lamp, panel lamp, lamp tube, lamp strip, lamp strip, etc. it can also produce LED lens, LED display screen and driver.

Parameter

Product name	LED SMT mounter
Product model	HT-E8D-1200
Length	3150mm
Width	2250mm
Height	1650mm
Total weight	2500kg
PCB size	Max:1200*300mm Min: 100*100mm
PCB thickness	0.5-5mm
PCB clamping	Adjustable pressure pneumatic
Mounting mode	Group picking and separate placing ,separate to pick and separate to stick
Feeding way	Electric feeder with double motor

Details

Ø MARK camera: Perform the installation procedure for the PCB board by scanning the mark point as a benchmark.

Ø Flight identification camera: Take photos of components taken by the mounting head of the LED SMT mounter, compare the mounting procedures made by the previous mark camera, and calculate whether compensation is needed to mount positive components

Ø Linear magnetic levitation motor: The rotor generates a magnetic field through external power connection. The stator itself is a permanent magnet. The interaction between the rotor and the magnetic poles causes the mounting head to repeatedly move.

Our Service

Global Service Office: India·Turkey·Vietnam·Egypt·Pakistan

Professional solutions: Provide professional SMT Full line solutions

Free Warranty: One-year warranty factory service. All parts damaged within the warranty period shall be replaced free of charge

Free Installation: On-site free installation to ensure smooth production.

Free Technical Training: Professional training of operating and maintenance.

Free Technical Support: 7 * 24 technical online support.

Free Software Upgrade: Offer free software upgrade whole lifetime

Related machine

We not only provide the pick and place machine, also provide the smt peripheral equipment, such as Loader machine, Conveyor machine, Stencil printer machine, Reflow oven machine, Unloader machine, Solder paste mixer, Roll to roll led strip light assembly machine ,AOI, SPI, etc

FAQ

Q1: Why should I choose to buy from you instead of from other suppliers?

A:Choosing us has the advantages of products, R & D and technical consultants. We will try our best to help you solve your problems.

Q2: How do you guarantee product quality?

A:We have special departments for the purchase of parts and the control of product quality. Of course, your technical consultant will follow up in the whole process of production to ensure product quality.
