

LED Automatic strip Cutting machine ET550 for led strip cutting

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: ET-550
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Condition: New
- Product Name: Strip Cutting Machine
- Usage: LED
- Local Service: India Egypt Vietnam
- Brand: ETON

Product Description

LED Automatic strip Cutting machine----ET-550

Introduction of products:

At present the industry upgrading process, many customers use lights connected to the 5 meter board solder, improve product quality and improve production efficiency, but the consistency of light bar edge width requirements higher, easy to strip butt welding plate, solve weld, false welding, welding fracture problems. Automation equipment R & d after repeated tests, the grand launch of ET-550 plate with double-sided adhesive machine.

Product features:

High efficiency: hourly capacity of 10000 meters, about 900 puzzle board;

High quality: plate lamp, strip edge, incision uniformity, easy to light strip welding position, convenient positioning;

The provincial Manual: a machine can replace the 3 manual workload;

Easy to operate: the lamp positioning, convenient, fast, efficient, single operation;

Reduce costs: equipment one-time investment, long-term use;

Wide use: one machine, multi-purpose, applicable to the mainstream FPC board, including: soft light bar, S type light bar, panel light.

Product parameter:

Efficiency: about 10000 meters per hour, light bar, about 900 puzzle board;

Gas source: 0.4-0.65Mpa;

Voltage: 220V 50-60HZ;

Power: 100W;

Machine size: Length 1500MM, Width 350MM, Height 900MM

Packaging and Delivery

Packaging: standard is plastic film wrap the LED SMT machine, then load into one 20" container; Wooden box packing can be customized.

Delivery: 35-40 days after 30% T/T prepayment, buyer should come to inspect when we do test running, after testing, pay the 70% balance before delivery

Service

We can provide you with excellent service, we also have professional overseas engineers to your factory provide install,

training service until you can operate the machine adroitly.

1.We can provide you with the whole production line.

2.Our software is R&D independently.We can offer software upgrade for lifetime for free

3.We have 50,000 square meters of industrial park. The production strength is abundant, occupies the first place in the domestic profession.

4.If you have any problem with the product, we will have overseas engineers come to your home for free repair or replacement within one year. Because we have offices overseas and local engineers.

FAQ

Q: How is the training?	A: After purchasing our machines, you can send your engineers to our factory, or we send our engineers to your factory, and then we will train your personnel to operate these machines. Online training and video tutorials. During the epidemic, if our engineers can't make it through, we also have special one-on-one online training and video tutorials.
Q: What kind of machine will provide besides pick and place machine ?	A: ETON as the largest manufacturer of SMT machine in China, we provide whole SMT line, such as reflow oven, printer, conveyor, pick and place machine, Loader, Unloader, etc.
Q: What is the difference of automatic line and semi automatic line ?	A: SMT production line mainly include stencil printer , pick and place machine, oven machine. The big difference of auto line and semi-auto line is the price and the labor. Automatic line required higher cost but save much cost of labor. Usually one operator is enough. But semi automatic line need at least 2 workers.
Q: Which kind of raw material should I prepared for SMT Line?	A:For SMT line, the raw material need to be prepared mainly include: PCB: It is the support body of electronic components ; Solder paste/ stencil for Stencil printer machine; Components (such as led chip, resistor, IC, etc)/ Feeders/ Nozzles for Pick and place machine;
Q: What is your actual speed of your products?	A: For the actual speed of the machine which is constrained by many factors,that relatedto the number of the components, the time to send PCB board and receive the board that will have influence on the speed when in production, and is decide for the actual products and needs.
