

0402 SMT Mounting Machine 45000CPH With 10 Head PCB Assembly Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Applicable Components: 0402
- Condition: New
- Usage: Circuit Board Assembly, SMT Mounting Machine, LED
- Mounting Speed: 45000 CPH
- Mounting Head: 10 Heads
- Highlight: 0402 SMT Mounting Machine, 45000CPH PCB Assembly Machine, SMT Moulder With 10 Head

Machine main part

Product Description

SMT Mounting Machine with 45000CPH with 10 head PCB assembly machine

Technical parameter

Model	HT-E8S-1200
Dimension	2550 mm*1650 mm*1550 mm
Total weight	1700 kg
PCB length width	Max:1200*500 mm Min:100*100 mm
PCB thickness	0.5-5 mm
Mounting precision	±0.04 mm
Mounting Speed	45000CPH

Machine features

Single module magnetic linear motor multifunctional pick and place machine.

Mounting components: LED chip, capacitors, resistors, lens, IC, shaped components etc.

Components: min size 0402, max height 15mm

Application: power driver, electric board, lens, DOB bulb, linear bulb, household appliance etc.

Electronic feeder feeding system

Vision alignment flight identification, mark correction

Non-stop material re-loading function

Auto-optimization after coordinates generated etc.

SMT Line solution

Vacuum loader/unloader: It is used for the terminal of SMT production line, retracts the multi-sided PCB board, receives the board output signal from the host computer, receives the PCB board one by one, and pushes the PCB into the material frame for storage.

Automatic printer machine: A device that leaks solder paste to the PCB board to prepare for the soldering of components.

Single conveyor: For connection between SMT production lines, it can also be used for PCB buffering, inspection, testing or electronic component insertion.

Pick and place machine: Accurately mount surface mount components to fixed locations on the PCB

Reflow zone: Melt the solder paste to firmly bond the surface mount components to the PCB

Company introduction

Package

Step 1 : wrap with stretch film to prevent the equipment from

Step 2: Vacuum paper packaging and moisture-proof bag, so that the machine can be kept dry during transportation to prevent moisture.

Step 3: Use straps and triangular wood to fix the machine to prevent damage to the machine during transportation

Step 4: each exported machine will be equipped with sturdy export wooden boxes, to ensure that the delivered product is good.

Market

As for the 15 years trade with more than 30 countries with our SMT high speed pick and place machine, we have come into business with many partners:

SURYA, POLYCAB, FIEM, RK, GK, TECHNO LED, CALCOM, CENTURY LED, AUTOPAL, SKYQUAD, NTL, KONARK, CEPL, FLARE, ACK, KENDAL, KING LED, RangDong, TAMKIM, UNISTAR, SKY INDUSTRIES, etc.

Service

Maintenance period 1 year

One year warranty, during warranty, any parts that need to be repaired and replaced will be free

Software and hardware lifetime maintenance

Free upgrade software, the software is Reach and developed by ETON, so we support whole lifetime free upgrade updates

Visit customers regularly and gather information

Visit clients regularly. We attend the different exhibitions in different cities every year, at the same time, we will visit local clients and support our service and collect feedback on customer suggestions in time

Provide the latest information about technology and equipment

We give professional technology suggestions to our clients. And share the updated news with our clients

On-site service

We have some official site in India as Mumbai and New Delhi, also have site in Egypt. Turkey that can provide service timely with our engineers.

According to your needs. dedicated senior engineer will come to your factory for free install and training you how to operate the machine.

FAQ

What is your machines quality?

We have our own industrial park. There are production centre and R&D centre and quality inspection centre to guarantee the machines quality.

How many hours does the machine can operate per day?

Machine can work whole day. But for longer using life, we suggest you to have 1 hour or 2 hours off per day.

Why choose us?

We are the leading manufacturer of global optoelectronic high-speed pick and place machine, we have more than 10 years experience, Independent offices have been set up in India, Turkey, Egypt and other countries to provide better services.

Can we customize the machine?

Of course, all of our machines can be customize.

How is the transportation?

By sea, by air and land transportation.
