

180K speed SMT Mounting machine for 1m rigid PCB board assembly with software copyrights

Our Product Introduction

for more products please visit us on smtmountingmachine.com

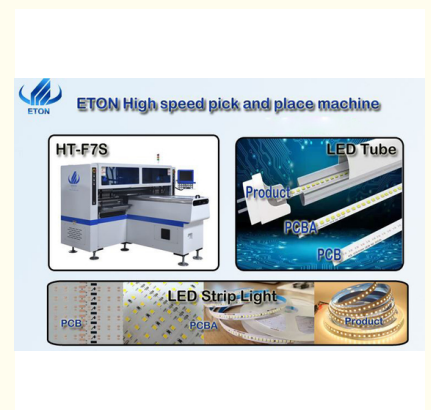

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-F7S
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Name: Pick And Place Machine/SMT Mounter/led Mounter
- Model: HT-F7S
- Warranty: 1 Year
- Mounting Speed: 180000 CPH
- Usage: SMT Mounting Machine, LED
- Locan Service: India, Egypt, Turkey, Vietnam
- Industrial Park Area: 52000 Square Meter
- Office Area: 3000 Square Meter

180K speed SMT Mounting machine for 1m rigid PCB board assembly with software copyrights

PCB thickness	0.5-5mm
PCB clamping	Adjustable pressure pneumatic
No.of camera	5 PCS
Repeating precision	±0.02mm
Power consumption	6KW
Power	380AC50Hz
Mounting speed	150000CPH – 180000CPH
Components space	0.5mm

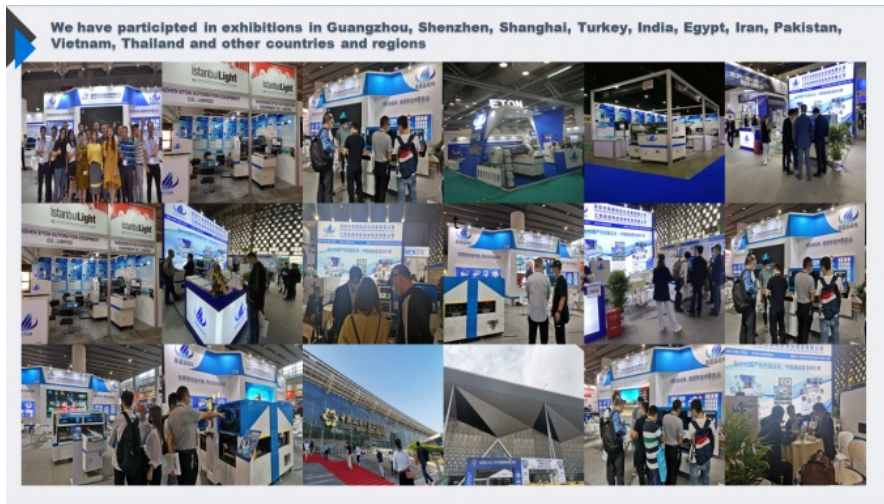

(1) Suitable machines: various machines are apply for various products, **DOB, LED bulbs, lens, streetlight, ceiling light, spotlight, flexible strip, electric board, power driver, household application, display min component 0201**, highest capacity reach **500000CPH**:

(3) **Market and export:** Help 90% of domestic LED factories to build production lines; Foreign exports to more than 30 countries and regions, such as Turkey, India, Egypt, Brazil, Russia, Pakistan, South Korea, etc

We worked with many brands, and received a lot good reputations because of our excellent services and good quality products .

Our company participates in many exhibitions at home and abroad every year, You will see ETON's booth in some well-known large-scale exhibitions in China, including large-scale exhibitions held in Shenzhen, Guangzhou, Chongqing, Shanghai and other places. Foreign exhibitions include exhibitions in more than 20 countries including Mumbai, Delhi, Egypt, Turkey, and Vietnam.

Packaging

All machines are packed with vacuum and wooden packing

Step1:Film packaging.

Step2:Vacuum packaging.

Step3:Wooden box packaging

You can trust us, because we have professional and standard packaging to protect the machine.

FAQ

1.How is your service?

If you buy our machine,we will send our engineer to your factory to install machine and training freely.

2.Is your software interface in English?

English interface and Chinese interface are both available.

3.How is the warranty?

Standard warranty is one year,during warranty,any parts need to be repaired and replaced will be free.

Client: Korean client

City: Seoul

Product: LED bulb

Bought 4 multi-function placement machines, and made a fully automatic solution.

The client is from Seoul, South Korea. They began to plan to produce LED bulb in 2016. Since the local labor cost is very expensive in South Korea, our company recommends the fully automatic production line solution. According to the client's monthly production demand, we plan 4 fully automatic SMT production lines Scheme: PCB loader + Automatic stencil printer+Conveyor+ Pick and place machine + Conveyor. In order to save the client's workshop and cost, we plan to use the robot arm to connect the PCB of 4 production lines, and placed the PCB on the same line automatically, which can not only separate the reflow soldering from the SMT workshop, but also save the cost of 3 reflow soldering machines. The client is very satisfied with this solution. After the client confirms the project and purchases the machine, the machine arrives at the factory. We plan the factory wiring for the client, and then arrange Chinese engineers to go to South Korea to install the machine for the client, provide training to the client's engineers, and carry out Trial production and Mass Production until the production is smooth. Now the client's machine has been working for 7 years, the machine is running very well, the client is very satisfied with ETON's after-sales service and technical support, and the after-sales cost is also very low, the main parts of the machine are international brand with good quality and durable. ETON prove excellent quality, advanced technology, fast and timely after-sales service by time.
