1 Year Warranty Industrial Intelligent Pick-and-Place Machine LED Making Machine

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE,CCC,SIRE
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1
- Price: USD30000~50000
- Packaging Details: WOODEN CASE
- Delivery Time: 20 DAYS
- Payment Terms: T/T,LC
- Supply Ability: 50/PER MOUNTH

Product Specification

- Accuracy: High Accuracy
- Warranty: 1 Year
- Speed: High Speed
- Application: Industrial
- Weight: 200kg
- Material: Metal
- Voltage: 380V
- Product Name: Pick And Place Machine

Product Description

Product Description:

Pick And Place Machine

This Pick And Place Machine is a fully automated, pick-and-place system designed for industrial applications. It is powered by 380V voltage and is equipped with high accuracy, ensuring highly precise and efficient performance. Its automatic pick-and-place capability makes it an ideal choice for various automated production lines.

This Pick And Place Machine also features stability, reliability, and ease of use, making it the perfect choice for various industrial tasks. With its high-speed and accuracy, this machine can quickly and accurately pick and place products, greatly improving workflow efficiency and production capacity.

Whether it's for assembly automation, material handling, or other industrial applications, the Pick And Place Machine is the perfect choice for efficient and reliable production.

Features:

Product Name: Pick And Place Machine HT-E8S-1200

Voltage: 380V

Type: **Automatic** Pick-and-Place

Application: Various of LED products and electronic products

Warranty: 1 Year

Features: **Intelligent** Pick-and-Place

Technical Parameters:

Product Name	Pick And Place Machine
Power Source	Electric
Material	Metal
Warranty	1 Year
Weight	200kg
Accuracy	High Accuracy
Type	Automatic
Voltage	380V
Speed	High Speed
Application	LED lightings, SMT products
Features	Intelligent Pick-and-Place, Automatic Pick-and-Place, High-Speed Pick-and-Place

Applications:

The **ETON HT-E8S-1200 Pick And Place Machine** is a revolutionary new product from China that is guaranteed to meet the highest standards of quality and performance. This powerful, intelligent, and automatic pick-and-place robot is certified with CE, CCC, and SIRE, and is capable of working with a minimum order quantity of just one. The machine is made with metal to ensure a durable and reliable product, and is powered by electric with a voltage of 380V.

The ETON Pick And Place Machine is an ideal solution for many industrial applications. With its advanced pick-and-place technology, it can quickly and accurately assemble parts, reducing the time and cost of manual labor. It is also highly suitable for use in automated production lines, allowing for faster and more precise assembly work. Moreover, the machine is designed for easy installation and maintenance, making it an ideal choice for companies looking for an efficient and cost-effective solution.

Customer satisfaction is our top priority, and the ETON HT-E8S-1200 Pick And Place Machine is available at a competitive price of between USD 30,000 and 50,000. It is packed in a wooden case for safe and secure delivery, and is able to be shipped within 20 days after payment. We have the ability to supply 50 machines per month, and payment methods include T/T and LC.

The ETON HT-E8S-1200 Pick And Place Machine is the perfect choice for an intelligent, automatic, and cost-effective pick-and-place solution. With its advanced technology and reliable performance, it is sure to provide you with the best value for your money.

Customization:

Pick-and-Place Machine

Brand Name: ETON

Model Number: HT-E8S-1200

Place of Origin: CHINA

Certification: CE,CCC,SIRE

Minimum Order Quantity: 1

Price: USD30000~50000

Packaging Details: WOODEN CASE

Delivery Time: 20 DAYS

Payment Terms: T/T,LC

Supply Ability: 50/PER MOUNTH

Type: Automatic

Voltage: 380V

Speed: High Speed

Material: Metal

Application: Industrial

Our **Pick-and-Place** has high performance and excellent design. It is designed for automated material handling in various industrial applications. With our **Pick-and-Place machine**, you can get the high speed, accuracy and flexibility you need to increase your production efficiency.

Our **Pick-and-Place Machine** is made of high quality metal for durability and stability. It offers high speed and accuracy to ensure fast and accurate operation. It is also equipped with advanced motor and control system to provide excellent performance.

Our **Pick-and-Place Machine** is CE,CCC,SIRE certified and the minimum order quantity is 1. It is available at competitive prices ranging from USD30000 to 50000. It is packed in wooden case and delivery time is 20 days. We accept payment terms of T/T,LC and supply ability is 50/PER MOUNTH.

Support and Services:

Technical Support & Services for Pick and Place Machine

Installation

We provide on-site installation and commissioning services for Pick and Place Machines.

Our technicians can also provide remote installation guidance.

We will provide the necessary spare parts, tools and equipment for the installation.

Maintenance

We offer maintenance contracts with regular scheduled visits.

We can also provide emergency repair services if necessary.

We provide professional maintenance and troubleshooting services.

Training

We provide comprehensive operator training for Pick and Place Machines.

We also offer in-depth technical training for maintenance personnel.

We can customize the training program to meet your specific needs.

Warranty

We provide a comprehensive warranty for Pick and Place Machines.

We guarantee the quality and reliability of our products.

We offer free repairs and replacements for any defects within the warranty period.

Packing and Shipping:

Packaging and Shipping of Pick And Place Machine

Pick And Place Machine will be securely packaged and shipped in the following manner:

The Pick And Place Machine will be packed in a custom cardboard box with the appropriate cushioning materials.

The box will be sealed with tape and labeled with the contents.

The box will be secured to a pallet for easy loading and unloading.

The pallet will be securely strapped to ensure the Pick And Place Machine is not damaged during shipping.

The Pick And Place Machine will be shipped via insured freight carrier.

FAQ:

Q: What is the brand name of the Pick And Place Machine?

A: The brand name of the Pick And Place Machine is ETON.

Q: What is the model number of the Pick And Place Machine?

A: The model number of the Pick And Place Machine is HT-E8S-1200.

Q: Where is the Place of Origin of the Pick And Place Machine?

A: The Place of Origin of the Pick And Place Machine is China.

Q: What kind of certifications does the Pick And Place Machine have?

A: The Pick And Place Machine has CE,CCC,SIRE certifications.

Q: What is the minimum order quantity for the Pick And Place Machine?

A: The minimum order quantity for the Pick And Place Machine is 1.
