High Speed Automatic Robotic Pick-and-Place with 1 Year Warranty

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE,CCC,SIRE
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1
- Price: USD30000~50000
- Packaging Details: WOODEN CASE
- Delivery Time: 20 DAYS
- Payment Terms: T/T,LC
- Supply Ability: 50/PER MOUNTH

Product Specification

- Power Source: Electric
- Application: Industrial
- Weight: 200kg
- Material: Metal
- Product Name: Pick And Place Machine
- Speed: High Speed
- Voltage: 380V
- Type: Automatic

Product Description

Product Description:

Introducing the Pick And Place Machine, a revolutionary industrial pick-and-place robot that is designed to provide reliable high-speed automation solutions. The machine is an automatic robot with a weight of 200kg, and it is designed to enable faster, more accurate and cost-effective assembly of production lines. With its advanced robotic technology, the Pick And Place Machine can help to reduce production time and improve production quality. It is perfect for industrial applications and can be used to replace manual labor, resulting in improved efficiency and decreased costs. This pick-and-place robot is also designed to be easily integrated with existing production lines and can be tailored to meet customer requirements. With its combination of reliability, speed and precision, the Pick And Place Machine is the ideal solution for any industrial application.

Features:

Product Name: Intelligent Pick-and-Place Machine

Weight: 200kg

Accuracy: High Accuracy

Type: Automatic Robotic Pick-and-Place System

Material: Metal

Application: Industrial

Technical Parameters:

Voltage	380V
Warranty	1 Year
Power Source	Electric
Application	Industrial
Type	Automatic
Material	Metal
Weight	200kg
Accuracy	High Accuracy
Speed	High Speed
Product Name	Automatic Pick-and-Place, Electronic Pick-and-Place, Electronic Pick-and-Place Machine

Applications:

Pick and Place Machine – ETON HT-E8S-1200

The ETON HT-E8S-1200 Pick and Place Machine is a high-speed and high-accuracy electronic pick-and-place machine. It is equipped with a powerful electric motor and made of durable metal material. The machine can operate at a voltage of 380V and is certified with CE, CCC and SIRE. The minimum order quantity for this product is 1, and the price ranges from USD30000 to 50000. The delivery time is 20 days and payment terms are T/T or LC. The machine is packaged in a wooden case and a maximum of 50 machines can be supplied per month.

The ETON Pick and Place Machine is ideal for applications that require high speed and accuracy. It can be used for a wide range of industrial processes, such as automatic assembly, production line automation, and more. The machine is perfect for high-precision operations and capable of performing tasks with a high degree of accuracy. Its strong electric motor provides powerful performance and makes it an ideal choice for industries such as electronics, automotive, and medical devices.

The ETON HT-E8S-1200 Pick and Place Machine is a reliable and efficient automatic pick-and-place solution for businesses that require high performance and accuracy. It is a great choice for industries that require fast and accurate operations.

Customization:

Customized Pick and Place Machine

We offer customized Pick and Place Machine solutions that perfectly fit your specific needs. Our Pick and Place Machine is an automated robotic system, widely used in many production lines. It is suitable for quickly and accurately placing components onto printed circuit boards.

Product Overview

Brand Name: ETON

Model Number: HT-E8S-1200
Place of Origin: CHINA
Certification: CE,CCC,SIRE
Minimum Order Quantity: 1
Price: USD30000~50000
Packaging Details: WOODEN CASE
Delivery Time: 20 DAYS
Payment Terms: T/T,LC
Supply Ability: 50/PER MOUNTH
Product Name: Pick and Place Machine
Voltage: 380V
Type: Automatic
Material: Metal
Power Source: Electric
Features and Benefits

Robotic Pick-and-Place capabilities for increased accuracy and speed
Highly reliable Electronic Pick-and-Place Machine
Can be customized to fit different production lines
High quality and durable material
Competitive price

Support and Services:

Technical Support and Service for Pick And Place Machine

We offer technical support and service for Pick And Place Machine to ensure optimal performance and satisfaction.

Our experienced technical support team is available 24/7 to help with any technical issue you might experience. We provide remote assistance, troubleshooting services, and on-site support to ensure that you are able to quickly and easily resolve any issue with your Pick And Place Machine.

Our technicians are highly trained in the latest technologies and can provide helpful advice and guidance on how to maximize the performance of your machine. We also offer maintenance services to ensure that your machine is running at peak efficiency.

We understand that when you purchase a Pick And Place Machine, you expect it to perform to the highest standards. We are here to help you achieve that goal. If you need any assistance or have any questions regarding the use and maintenance of your machine, please do not hesitate to contact us.

Packing and Shipping:

Packaging and Shipping for Pick And Place Machine:

The Pick And Place Machine will be securely packaged in a cardboard box.

The box will be sealed with packing tape.

The package will be shipped using a reliable courier service.

FAQ:

Q1: What is the brand name of your Pick And Place Machine?

A1: The brand name of our Pick And Place Machine is ETON.

Q2: What is the model number of your Pick And Place Machine?

A2: The model number of our Pick And Place Machine is HT-E8S-1200.

Q3: Where is your Pick And Place Machine made?

A3: Our Pick And Place Machine is made in China.

Q4: What certifications do you have for your Pick And Place Machine?

A4: Our Pick And Place Machine is certified with CE, CCC, SIRE.

Q5: How much does your Pick And Place Machine cost?

A5: The price of our Pick And Place Machine ranges from USD30000~50000.
