## Electrical Board PCB Chip Mounter Machine With Windows 7 O.P System CCC

### Our Product Introduction

#### Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE
- Model Number: YT20S

#### Product Specification

- Machine Name: Mounter Machine / Pcb Board Mounter
- Machine Warranty: 1 Year
- Mounting Speed: 98000 Cph
- O.P System: Windows 7
- Highlight: **PCB SMT Chip Mounter Machine,  
CCC Chip Mounter Machine,  
Windows 7 Chip Mounter Machine**

## Product Description

### Eletrical board 3C pcb chip mouter machine

#### 3C pcb chip mouter machine

Chip mouter machine mounting smd on the pcb, widely used in many eletrical 3C product pcb. Here are the features of mouter machine

1. Intelligent control. Mouter machine is automatic operate by the software, easy for operate
2. High speed save much labor cost. Using mouter machine only need one engineer to operate machine, it is save labor cost maximum.
3. Good quality control. Mouter machine could be Automatic correction of mounted components through camera scanning recognition. Guarantee precision mounting.

#### Mouter machine parameter

Machine name	Mouter machine/pick and place machine/placement machine
Machine model	YT20S
No.of mounting head	20 PCS
Machine speed	98000 cph
O.P System	Windows 7

FEEDER CAR

Support IC Tray  
High precision

ELETRICAL FEEDER

Support Feeder  
car, flexible line

Support IC Tray  
High precision

#### How to saved the PCBA

Package the circuit boards that have been mounted and welded by the placement machine. Different products have different packaging methods. Some are electrostatic sensitive components, so anti-static packaging materials must be used, and some need to be moisture-proof and moisture-proof materials must be used. If there is no special requirement, it will be packaged in the ordinary way, the key depends on the requirements of the product and the needs of customers. The details that need to be paid attention to in the packaging are not to miss the assembly parts, the quantity should be accurate, and it should be easy to count and check. The tools used for packing such as blades, tapes, etc. should not be packaged in the packing box carelessly, and do not pack any garbage into the packing box. At the same time Be careful to handle with care.
