ETON SMT Mounting Machine For PCB SMD With High Speed 90000CPH

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-E8D-1200
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Applicable Components: 0402
- Name: SMT Pick And Place Machine
- Condition: 100% Original,Brand-new
- Product Name: ETON SMT Pick And Place Machine
- Mounting Speed: 90000 CPH
- Usage: Circuit Board Assembly,LED
- Feeders: 48PCS
- Highlight: **CE SMT Mounting Machine For PCB ,
90000CPH SMD Mounter Machine,
High Speed SMD Mounter Machine**

Product Description

ETON SMT Mounting Machine for PCB SMD with High Speed 90000CPH

Technical parameter

Model	HT-E8D-1200
Length	3150mm
Width	2250mm
Height	1650mm
Total Weight	2500kg
PCB Length Width	Max:1200*300mm Min:100*100mm
No. of Camera	4 sets of imported camera Vision for the flight identification, MARK correction
Mounting Speed	90000 CPH
No. of Feeders Station	48 PCS
No. of nozzles	24 PCS
Electrical control	Independent research and development by ETON

Machine description

E8D is Double modular double rail. E8D is 1200*300mm

4 sets camera: Vision for the flight identification, MARK correction

The application of E8D and E8S is the same, but E8D is dual-track, and the production capacity is twice that of E8S

E8S mounting LED bulb :Actual speed is 20000cph-22000cph.E8D is double

If you want to make various LED lights, you can choose E8S. If you want to have a higher capacity, you can choose E8D.

Brand influence

ETON is the No. 1 brand of placement machines in China, enjoys a high reputation at home and abroad, has extensive influence.

Many customers trust our brand and become repeat customers of our company by domestic and foreign customers.

ETON automatic high-speed energy-saving placement machine T9-2S with 500000 CPH, with its unique technology, strong production capacity and perfect after-sales service system, has completely subverted the LED placement machine industry and solved the problem of soft lights with long lights.

ETON GROUP

ABOUT US

Shenzhen ETON Automation Equipment Co.,Ltd. was founded in 2011. ETON is the leading manufacturer of global optoelectronic highspeed pick and place machine, Full SMT line. the products are exported to more than 20 countries and regions, including South Korea, India, Vietnam, Tunisia, Egypt, Turkey, Russia, Brazil etc.

Testing workroom

Exhibition

ETON industrail park

Certificates

As an experienced manufacturer in SMT machine, we obtained a number of intellectual property technologies, including 9 invention patents, 112 practical patents, 12 software copyrights, with our won R&D department for production and inspection. And also earned the oversea certificates as CE, CCC, SIRA, etc.

FAQ

Q: How about the after-sale service? How about the warranty?

A: We have a team of professional engineers to solve your problems. Any parts that require repair and replacement are free of charge during the warranty period. We can also provide you with training and on-site installation, and support remote control of the machine, the machine uses Chinese and English interface, very easy to operate.

Q: What is your delivery date?

The delivery date is about 20 days upon the full payment.

Q: I'd like to know how your machines are transported?

A: We ship to world wide from china mainland using air mail by EMS, UPS, DHL or TNT or as your request for parts. --- Sea shipping for machine.

LED Panel Lighting

1. Flexible design of LED panel lamp

LED is a kind of point light-emitting body. Designers can design light sources with different shapes and particles according to customer requirements through the flexible combination of points, lines and surfaces. Its design is very flexible.

2. LED panel light illumination is high

LED panel lamp adopts reflective panel with uniform light emission and sealed design, and is made of high-efficiency light guide plate and aluminum alloy material. The luminous effect is uniform and the illumination is higher.
