

ETON SMT Mounting Machine Double Modular Double Rail For PCB Boards

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-E8D-1200
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Applicable Components: 0402
- Name: SMT Pick And Place Machine
- Condition: 100% Original, Brand-new
- Product Name: ETON SMT Pick And Place Machine
- Mounting Speed: 90000 CPH
- Usage: Circuit Board Assembly, LED
- Feeders: 48PCS
- Highlight: **SMT Mounting Machine Double Modular, SMT Mounting Machine Double Rail, Double Rail SMT machine**

Product Description

ETON SMT Mounting Machine with High Magnetic Linear Motor for PCB SMD pick and place machine

Technical parameter

Model	HT-E8D-1200
Length	3150mm
Width	2250mm
Height	1650mm
Total Weight	2500kg
PCB Length Width	Max:1200*300mm Min:100*100mm
No. of Camera	4 sets of imported camera
	Vision for the flight identification, MARK correction
Mounting Speed	90000 CPH
No. of Feeders Station	48 PCS
No. of nozzles	24 PCS
Electrical control	Independent research and development by ETON

Machine description

E8D is Double modular double rail. E8D is 1200*300mm

4 sets camera: Vision for the flight identification, MARK correction

The application of E8D and E8S is the same, but E8D is dual-track, and the production capacity is twice that of E8S

E8S mounting LED bulb :Actual speed is 20000cph-22000cph.E8D is double

If you want to make various LED lights, you can choose E8S. If you want to have a higher capacity, you can choose E8D.

Application

This machine designed for many kinds of PCB boards. It has 24 nozzles and mounting speed reached 90000cph. Using newest high magnetic linear motor, so the speed and accuracy is better than normal multi-functional machines. It mainly suitable for LED tube, flexible strip light, lens, power drive and so on.

Company profile

Shenzhen ETON Automation Equipment Co., Ltd., has devoted itself to researching SMT placement machine and its peripheral equipment for 14 years. The company also has a branch in Jiangxi Province. The total area reaches 50,000 square meters and has the largest industrial park.

Certificates

As an experienced manufacturer in SMT machine, we obtained a number of intellectual property technologies, including 9 invention patents, 112 practical patents, 12 software copyrights, with our won R&D department for production and inspection. And also earned the oversea certificates as CE, CCC, SIRA, etc.

FAQ

Q1: Can you support the whole SMT Series?

A1: Yes, we can provide the whole solution line if you want. We are professional on SMT field.

Q2: How to use the calculator?

A2: We will send our engineer to your factory to install the machine and train freely. Usually 3 to 5 days of training activity is Enough.

Q3: Why choose us?

A3: Our company is the leading manufacturer of automatic high speed Pick and place machine.

Q4: How is the warranty?

A4: Standard warranty is one year, during the warranty period, any parts need to be

repaired and replaced will be free of charge.

Q5: How is the decomposition rate of the machine?

A5: Our machine is very stable, the decomposition rate is less than 0.001.

Q6. Is your software interface in English?

A6: English interface and Chinese interface are both available.

Led strip light

LED strip light is mean mounting led chip on the copper wire lamp or the ribbon flexible circuit board(FPC). Normally, there are 0.5m , 1m, 5m, 10m,25m strip light in the led lighting market.

LED Strip light machine

F7S is the high speed mounting machine for led strip light, panel light, tube light, etc. It is very good performance as fellow parameters show:

High speed: F7S with 34 heads and 68 feeders, the speed reach 150000-170000 CPH. Around 1300m-1500m per hour.

High precision: F7S mounting precision reach 0.02mm, support automatic feeding. Total 5 sets of imported camera, vision alignment and mark correction.

Multifunctional: Suitable for mounting LED chip 3014/3030/3528/5630/5730/4014/2835/resistor/etc

How to choose LED lighting making machine ?

For led lighting machine, there are different modules for different size of led lighting. ETON company for no wire led strip light, suggest super high speed and professional machine. For led bulb, we have multifunctional mounting machine. So for your lighting, we need to according to your lighting details give you best suggestions.
