KT10S SMT Mounting Machine: Magnetic Linear Motor, Double Gantry Y Axis

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: KT10S
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Name: Pick And Place Machine
- Model: KT10S
- Warranty: 1 Year
- Applicable Components: 0201
- Condition: 100% Original, Brand-new
- Mounting Speed: 48000 CPH
- Feeders: 52

Product Description

KT10S SMT Mounting Machine: Magnetic Linear Motor, Double Gantry Y Axis

Machine main parameter

Model	KT10S
Dimension	1490*2020*1650mm
Total weight	2080kg
PCB size	Max:500*470mm(Length can be customized) Min:50*50mm
PCB thickness	0.5-5mm
Mounting precision	CHIP ± 0.03 mm, QFP ± 0.025 mm, Cpk $\geq 1.0(3\sigma)$
Mounting speed	48000 CPH(Optimal speed)
Components	LED, capacitor, resistors, shaped components,etc
Power consumption	220AC 50HZ 1.5KW
Feeder station	52 PCS(option 104 PCS), IC tray option
No. of head	10 PCS

Machine main features

Single module X,Y,Z axis high-end magnetic linear motor, high precision than classic model

Y axis double drive gantry, higher speed more stability

The placement head adopt independent vacuum detection, improve the placement performance

Off-line programming, save time of changeover cycle

Equipped coordinate import function, more intelligent

DOB Bulb making machine line

DOB Bulb making machine SMT Line is included stencil printer machine, conveyor, pick and place machine, reflow oven machine.

And this line is also not only suitable for making DOB, but also could be produce other led lighting, like the down-light, street light, panel light, driver board, etc.

Company profile

ETON Automation Equipment Co., Ltd is a professional manufacturer focusing in pick and place machine. Right now, we have integrated R&D, production and sales together.

With good quality, competitive price, easy operation and energy saving, our products are very popular in domestic and oversea market. And all of our machines are widely used in electronic circuit, photovoltaic, LED industry, instruments and apparatuses.

Up to now, our products are already sold in many countries such as USA , KOREA , INDIA , GERMANY , EGYPT , TURKEY , VIETNAM , TUNISIA , THAILAND more than 30 countries. We will continue to make great efforts to satisfy the customers' requirement.

Service

Company five level management policy: sincere business, focus on R&D, manufacturing intentions, considerate service, customer trust.

"no worries" after sale service concept: the pearl River Delta region to arrive within 4 hours, day to solve; Guangdong Province 24 hours.

Visit customers regularly and gather information.

Provide latest information about technology and equipment.

High service efficiency, there is service office in India. Besides India, we also have local engineers in Egypt, Turkey. Can provide you with timely services.

Chinese engineers provide online services. If necessary, Chinese engineers will come to your factory for free install and training.

Quality First, Client-oriented, Continuous Improvement.

24 hours online for you to answer.

FAQ

Q: What kind of machine will provide besides pick and place machine ?

A: ETON as the largest manufacturer of SMT machine in China, we provide whole SMT line, such as reflow oven, printer, conveyor, pick and place machine, Loader, Unloader, etc.

Q:What are your advantages?

A: Our company stick to five level management policy: sincere business, focus on R&D, manufacturing intentions, considerate service, customer trust.

Q: Do you have oversea after sale service?

A: We can provide technical support abroad. If you have any technical problems, our engineers will provide you with timely support.Abroad, we have India office, Indian engineer, Egyptian office and Egyptian engineer , etc.

Q: How is the training?

A: After purchasing our machines, you can send your engineers to our factory, or we send our engineers to your factory, and then we will train your personnel to operate these machines. Online training and video tutorials. During the epidemic, if our engineers can't make it through, we also have special one-on-one online training and video tutorials.

LED placement machine is developing towards flexibility and modular structure

The development of the times has promoted people's living standards and cognition, and personalized needs are an important strategic means for the future market. The opening of the first year of e-commerce has given us more enlightenment that the traditional physical store business model is more developed and transformed in the direction of product experience stores. In order to meet the individual needs of the market, electronic product manufacturing in the future will face challenges such as diverse varieties, less batches, and shorter cycle times. An effective way to adapt to this trend is the flexibility of placement equipment.

LED placement machine is developing in the direction of intelligence

With the rapid development of Internet technology, the explosive growth of mobile smart terminals and the rejuvenation of consumer groups, intelligence is inevitable in the development of the electronics industry, especially the home appliance industry. The concept of intelligence has frequently appeared in our lives. Among them, the intelligentization of products is the most promising future market. Similarly, in the manufacturing industry, the intelligence of manufacturing equipment is the most promising development of manufacturing technology.
