SMD 3014/5050/2835 Mounting Machine For LED Tube Placement Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-F7S
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Applicable Components: 0805,0603,1206
- Name: SMT Pick And Place Machine
- Application: SMT Production Line,for SMT Machine
- Condition: New,100% Original,Brand-new
- Mounting Speed: 180000 CPH
- Type: Automatic
- Usage: SMT Mounting Machine,LED
- Highlight: LED tube Placement Mounting Machine,
SMD 3014 Mounting Machine,
SMD 5050 Mounting Machine

Product Description

High Speed Chip Shooter LED SMT Machine SMD LED chip mounter

What is Pick and Place Machine?

Automatic Positioning Machine is used to realize high speed, high precision and automatic positioning of components. It is the most important and complex equipment in the whole SMT production. The machine position is really an industrial precision robot. Through the function of absorption-transfer-position-position, without damaging components and printed circuit boards, it realizes fast and accurate mounting of SMC/SMD components to the processes Specify the Pad position on the PCB Board.

Application

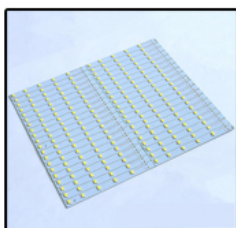

I Apply to the 0.6m, 0.9m, 1.2m(0~1.2m)LED hard light Board and LED Strip (Rope Light) etc.

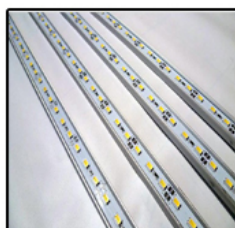

I Apply to LED Strip flexible and hard tube board, panel etc.

Flexible strip

LED Chip board

LED Chip board

LED Tube

LED Panel light

LED Spotlight

Technical Parameter

HT-F7S	Specifications
Length Width Height	2700*2450*1530mm
PCB Length Width	MAX:1200*330mm MIN:50*50mm
PCB Thickness	0.5 ~ 5mm
Mount Mode	Group to have and group to bond
Not available. of Camera	5 sets of imported cameras
System Vision	Vision link, Mark correction
Precise Mounting	± 0.02mm
Installation Height	15±2Mm
Mounting Speed	150000 ~ 170000CPH
Element	LED30140/3528/5050/3030/5630/5730/4014/2835 and resistor etc.
Speed Components	0.2mm
Eat Station	68PCS
Not available. of the Nozzles	34PCS
Electrical control	Independently researched and developed by ETON
Modular Motion Control Card 1 Set	Independently researched and developed by ETON
XY Shaft Drive Way	High-grade magnetic linear motor and servo motor
How to eat	Power feeder with dual motors

Our company

◆ Our company ETON is the largest manufacturer of high speed pick and place machine. We start from 2011, around 8 years. As the leading brand of high-speed machine placement machines, ETON has an absolute leading position in the LED industry market share. In the market, around 80% of large LED factory are our client. Our company has an industrial park equipped with advanced processing and manufacturing centers

◆ Our company has obtained 9 invention patents, 12 software Copyrights and 112 practical patents
Patent number: ZL 2011 2 0237740.9 ZL 20 11 2 0334606.0
ZL 2012 2 0178869.1 ZL 2012 2 0415505.0
ZL 2012 2 0415044.7 ZL 2012 2 0415356.8
ZL 2012 2 0415061.0

Five-star Services

- 😊 **Professional solutions:** Provide professional SMT Full line solutions
- 😊 **Free Warranty:** One-year warranty factory service.
- 😊 **Free Installation:** On-site free installation to ensure smooth production.
- 😊 **Free Technical Training:** Professional training of operating and maintenance.
- 😊 **Free Technical Support:** 7 * 24 technical online support.
- 😊 **Free Software Upgrade:** Offer free software upgrade whole lifetime

Our products

SMT Machine

Loader machine

semi-auto stencil printer

Reflow oven

Translational machine

Unloader machine

Glue Dispenser Machine

PCB cleaning machine

Solder paste mixer

Automatic stencil printer

Vacuum Loader

Double-rail conveyor

Single-rail conveyor

Why do we adopt the smart electronic feeders?	Our machines adopt the smart electronic feeders which are more stable,universal and intelligent. The feeding speed of electronic feeder is faster than the traditional pneumatic feeder.It can avoid the cost and drop of materials effectively.
What's about the guarantee of the machines?	The maintenance:1 year whole machine,any parts need to be repaired or replaced will be free. We will take the responsibility of the machines from A to Z.
What are the main LED products o our machines for?	There are different machines in our company and different machines apply to different LED lights. The main products we can apply:bulb tube strip lamp panel. Down light,streetlight,ceiling light.wall washer light and so on.
What kind of service I can have, if I buy machine from ETON ?	We will give you install and training. It is free for you. And we will sent engineer with you.
It's hard to use the machine?	No, not at all. For our previous clients, at most 5 days is enough to learn to operate the machines.
