ISO SMD LED Pcb Stencil Printer with 1500mm length 500mm width

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen,China
- Brand Name: ETON
- Certification: CE,SIRA,CCC,ISO
- Model Number: ET-1200
- Minimum Order Quantity: 1 UNIT
- Price: USD1000~4500USD per Unit
- Packaging Details: Standard export wooden case package(Can do as customers' requirement)
- Delivery Time: Within 15 days after receive the downpayment
- Payment Terms: T/T, L/C, Western Union, MoneyGram, D/P
- Supply Ability: 30 UNIT per month

Product Specification

- Application: Large SMT Production Line Use Automatic Screen Printing Machine For PCB With CE Certificate
- Applicable Materials: Solder Paste,red Glue Etc.
- Printing Area: 1200×250 Mm
- Plate Area : 1200*300mm
- Stencil Frame Size : 470×370 Mm 1200×550 Mm (L×W)
- Positioning Way: Positioning Pin
- Apply To: (SMT Machine)PCB,Hard Light Board Or Soft Lamp Strip,etc.
- Scraper Speed : 0-100 Mm/second
- Name: Smt Semi-auto Stencil Printer,semi Automatic Printer,smt Machine
- Highlight: **stencil printer machine**, **automatic screen printing machine**

Product Description

Product Description:

SMT LED machine,SMT LED pick and place machine,LED light production machine,LED light assembly machine

1. Features:

Eton automatic stencil printer HT-ET1500:

Apply to different kinds of PCB board,FR4,Aluminum,flexible PCB,FPCB etc.

Applicable PCB size: 1500mm length 500mm width.(Big size,more flexible)

Using windows XP operating system,indepent research and development of graphical man-machine interface.In particular,to do the program file navigation effect,to facilitate all operators quickly familiar with the operation;menu in Chinese/English switch,operation log,fault record/fault record/fault self-diagnosis/failure analysis tips/light alarm and other functions,making the operation simple and convenient.

Z axis screw servo direct connecting device,to ensure high precision,high speed and stripping stability.

With net frame rectifying and linear motor driving,the system is more stable than “platform correction system”,and therefore the machine is more in line with high precision requirement of printing.The stencil clamping system can be automatically positioned by stencil MARK point position data input without adapter,which is convenient for the flexible replacement of the stencil of different sizes.

High-power fan plus venturi vacuum generator device vacuum;dry,wet,vacuum three cleaning methods,and can choose any combination of free,the user can set the cleaning period,time,speed and other parameter according to actual needs;soft wear-resistant rubber wipe board,clean thoroughly,easy to disassemble.

2.Our service

Our Services

1. **Help customer analyze product project and provide solution.**
2. **Freely sample test.**
3. **Skilled jig design services.**
4. **Provide shipping/delivery information checking service.**
5. **One year guarantee, all life maintain promise.**
6. **24 hours feedback speed by email of others.**
