

220V 50HZ LED Bulb Making Machine , LED Production Machine Easy Operation

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE
- Model Number: ET-L330
- Minimum Order Quantity: 1
- Price: 3000-4000USD
- Packaging Details: Wooden box
- Delivery Time: 15 days
- Payment Terms: T/T, Western Union
- Supply Ability: 100 Units/ Per Month

Product Specification

- Condition: New
- Name: PCB Send Board Machine
- Product Name: ET-L330
- Length: 1400MM
- Power Supply: 220V 50Hz
- Brand: Eton
- Highlight: led chip making machine,
led production equipment

Product Description

High Quality Automatic LED PCB Send Board Machine ET-L330 Eton Machine

SMT PCB loader parameters

Item	ET-L330 send board machine
Dimension	L1400*W860*H1200±30mm
Frame	Special aluminum profile guide rail and special thousand bird type plastic chain
Lift	90W Taiwan brake motor drive uses ball screw to make Magazine stepping up and down
Transmission motor	Taiwan 15W fixed speed motor
Structure	Pneumatic clamp structure
Magazine Specifications	L460*W400*565mm
Maximum size of PCB	L450*W330
Direction	Right to left / left to right
Lift platform pitch selection	10,20,30,40
Transmission height	H=920±30
Controller	Mitsubishi PLC programmable controller
Function	Automatically send board
Operation control panel	Display control true color touch screen
Pneumatic Components	Push plate cylinder position, adjusted by screw
power supply	220V 50HZ
No. of Full load storage board	50 PCS
Gas source	0.4-0.6MPa
Electric control box	1 set

The SMT loader description

1. Aluminum alloy guide rail, stable and durable and beautiful.
 2. Microcomputer PLC control system, stable and reliable work.
 3. Touch screen display operation, with automatic fault diagnosis function, convenient man-machine dialogue.
 4. A number of sound and light and touch screen prompt alarm function.
 5. The height of material wall can be adjusted according to PCB thickness.
- Humanized design to ensure that PCB board is not pushed to break, improve the output capacity
6. Adopt automatic board dropping method, effectively shorten the board time.
 7. Electrical components of equipment adopt well-known brands.
 8. Smaller machines cover less space.
