Product Description

Environmentally Friendly Pick And place line , Water-based Off-line Pcba Automatic Cleaning Machine

PCB cleaning machine:

The PCB cleaning machine is professionally designed to be fully integrated into today's surface mount production processes. Before applying solder paste printing, remove the contaminants on the surface of the PCB board, and make the board clean and pollution-free into the next process.

This simple and extremely effective step reduces product defects and improves product quality and reliability. Another step in the surface mount process that benefits from the cleaning machine is the cleaning after laser printing.
