

Hot selling led pick and place machine For led bulb/tube/panel light, led mounter,capacity reach 200000 CPH

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: china
- Brand Name: ETON
- Certification: ccc,ce,sira
- Model Number: HT-F9
- Minimum Order Quantity: 1 unit
- Price: \$33,000.00/unit
- Packaging Details: waterproof material packing and wooden case
- Delivery Time: 30 working days
- Payment Terms: L/C, T/T
- Supply Ability: 80 units per months

Product Specification

- PCB Length Width: 1200*330 Mm—100*100 Mm
- Dimension: 2700*2300*1550
- PCB Thickness: 0.5—5mm
- Mounting Mode: Group To Pick And Group To Mount
- No Of Camera: 5 Sets
- Mounting Precision: $\pm 0.02\text{mm}$
- Mounting Height: $< 13\text{mm}$
- Mounting Speed: 200000 CPH
- Components: LED 3014,3020,3528,5050 And Resistor, Capacitor, Bridge Rectifiers
- No. Of Feeder Station: 68
- No. Of Nozzles: 68
- Power: 380AC 50HZ
- Power Consumption: 6kw
- Highlight: **LED Display Smt Moulder Machine,**

Product Description

IPC9850 capacity: 200000CPH

Patent number: ZL201120237740.9/ZL201120334606.0/ZL201220178869.1/ZL201220415505.0/ZL 201220415044.7/ZL 201220415356.8/ZL 201220415061.0

Upgrade again, five advantages, strong strike

High precision. Solved the problem of throwing materials of previous machines. 5 sets of imported camera with its features of vision alignment and Mark correction to ensure.

High capacity. 200000CPH, to solve your troubles of low production efficiency. With its Dual-arm. Four module, 17 nozzles for each mounting part, part A/B/C/D can be mounted separately or synchronously.

High technology. Automatic operation, save a lot of manpower and material resources. Exclusive Patent Technology: group to pick and group to mount. High-end magnetic linear motor +servo motor to drive X,Y Axis.

Wide range of use. Suitable for 5M,50M, or any length of LED flexible strip and roll to roll. No matter what length of light strip you want to produce, it is enough to buy this machine.

Technical Support. It doesn't matter if you don't know the technology, we have a professional team and professional engineers that can provide on-site services

wide application:

With the development of technology, the electronic product industry is booming and the LED market has a good prospect. And these products are getting smaller and lighter. It is very important to build a SMT line, and the pick and place machine directly affects the core capabilities of the SMT production line.

Shenzhen ETON automation equipment co.,LED.

APPLICATION:

A. Portable operation, Chinese-English bilingual interface

System: windows 7

Computer operation control, realize automation, save manpower, time, cost, etc.

Attach the operation manual and video, easy to get started

B. five sets of imported cameras, mounting precision : $\pm 0.02\text{mm}$

Features: Vision alignment flight identification, Mark correction

Recognize whether there is a deviation after absorbing the original and pass the recognition camera, and quickly adjust the deviation automatically to ensure the accuracy of component placement

C. Simultaneously mount 4 kinds of materials to improve efficiency

68 nozzles, using exclusive patented technology: group fetching group stickers. New innovations that ensure both placement accuracy and production capacity.

Packaging & Shipping:

Our package is to keep the product intact and delivered to your hands. So we have adopted double-layer packaging inside and outside, in line with international packaging standards. Internal steel frame structure to prevent the machine from being squeezed, and then wrapped with plastic film and packaging tin foil to prevent the machine from getting wet. External wooden board encapsulation.

We provide [sea or air transportation](#). But if you have other options, you can negotiate privately, we will focus on your convenience and preferences!

Why to choose us?

We are **ETON** (SHEZHEN ETON AUTOMATION EQUIPMENT CO.,LED.)

We have our own **industrial park** and R&D team, and set up **subsidiaries** in Hong Kong, Jiangxi and Shenzhen.

We have an independent **R&D technical team** that can design the appropriate SMT line and other technical consultations for you

FAQS:

1.What is the power supply?
380AC,50HZ.

2. How long is the warranty? If any problems, how to solve it?
13 months from the date of shipment. If any quality problems within warranty, Suntech will responsible for it, and send new replacements.

3. Do you provide after-sales technical services?

Yes, we do. And we can send professional engineers to the working site for equipment installation, adjustment, and operation training.

4. When can we arrange shipment?

We usually arrange shipment within 15 days after getting deposit, but customized machines should be more than 25 days.

5. Are you a trading company or a factory?

We have the factory and we are committed to the R & D, production, sales and after-sales technical services of SMT high-speed patch.

6. What is the payment method?

L/C or TT.

7. Do you have your own R&D team?

Yes, we can customize products as your requirements.
