

The newest led pick and place machine for led flexible strip light, led mounter, capacity reach 200000 CPH

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: china
- Brand Name: ETON
- Certification: ccc, ce, sira
- Model Number: HT-T9
- Minimum Order Quantity: 1 unit
- Price: \$33,000.00/unit
- Packaging Details: waterproof material packing and wooden case
- Delivery Time: 30 working days
- Payment Terms: L/C, T/T
- Supply Ability: 80 units per months

Product Specification

- PCB Length Width: 250 Mm* Any Length
- Dimension: 3100*2300*1550
- PCB Thickness: 0.5—5mm
- Mounting Mode: Group To Pick And Group To Mount
- No Of Camera: 5 Sets
- Mounting Precision: +-0.02mm
- Mounting Height: <13mm
- Mounting Speed: 200000 CPH
- Components: LED 3014, 3020, 3528, 5050 And Resistor, Capacitor, Bridge Rectifiers
- No. Of Feeder Station: 68
- No. Of Nozzles: 68
- Power: 380AC 50HZ
- Power Consumption: 6kw
- Highlight: **LED Display Smt Moulder Machine,**
With High Cost Moulder Machine

Product Description

IPC9850 capacity: 200000CPH

Patent number: ZL201120237740.9/ZL201120334606.0/ZL201220178869.1/ZL201220415505.0/ZL 201220415044.7/ZL 201220415356.8/ZL 201220415061.0

Upgrade again, five advantages, strong strike

High precision. Solved the problem of throwing materials of previous machines. 5 sets of imported camera with its features of vision alignment and Mark correction to ensure.

High capacity. 200000CPH, to solve your troubles of low production efficiency. With its Dual-arm. Four module, 17 nozzles for each mounting part, part A/B/C/D can be mounted separatly or synchronously.

High technology. Automatic operation, save a lot of manpower and material resources. Exclusive Patent Technology: group to pick and group to mount. High-end magnetic linear motor +servo motor to drive X,Y Axis.

Wide range of use. Suitable for 5M,50M, or any length of LED flexible strip and roll to roll. No matter what length of light strip you want to produce, it is enough to buy this machine.

Technical Support. It doesn't matter if you don't know the technology, we have a professional team and professional engineers that can provide on-site services

wide application:

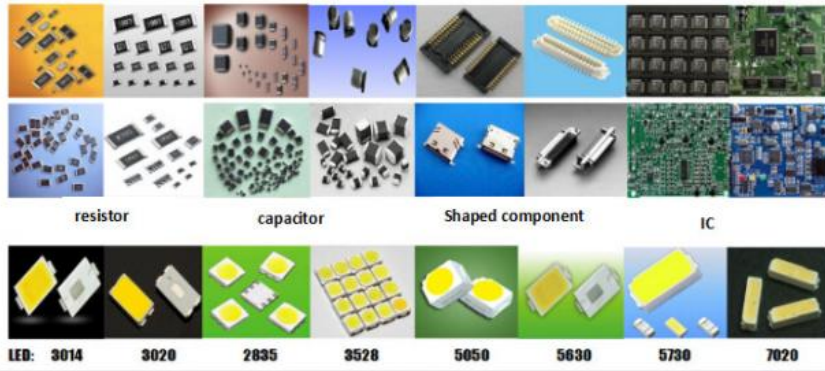

With the development of technology, the electronic product industry is booming and the LED market has a good prospect. And these products are getting smaller and lighter. It is very important to build a SMT line, and the pick and

place machine directly affects the core capabilities of the SMT production line.

Shenzhen ETON automation equipment co.,LED.

APPLICATION:

A. Portable operation, Chinese-English bilingual interface

System: windows 7

Computer operation control, realize automation, save manpower, time, cost, etc.

Attach the operation manual and video, easy to get started

B. five sets of imported cameras, mounting precision : $\pm 0.02\text{mm}$

Features: Vision alignment flight identification, Mark correction

Recognize whether there is a deviation after absorbing the original and pass the recognition camera, and quickly adjust the deviation automatically to ensure the accuracy of component placement

C. Simultaneously mount 4 kinds of materials to improve efficiency

68 nozzles, using exclusive patented technology: group fetching group stickers. New innovations to ensure both placement accuracy and production capacity.

Super long guide rail, can mount unlimited long flexible light belt, it is a good helper for mounting soft light belt

Packaging & Shipping:

Step 1: The plastic film adheres tightly to the package and is moisture-proof

Step 2: The film and the film are fixed on the base of the board

Step 3: Outer layer packaging

Step 4: Transportation

We promise: our packaging fully conforms to international packaging standards. If the packaging is found to be damaged after receipt, and it affects the use of the machine, you can contact us as soon as possible. Our customer service is available 24 hours online for you!

Multifunctional transportation:

- 1.ocean shipping
- 2.air transport
- 3.Ground transportation

you can choose any of the above transportation methods!

Why to choose us?

We are **ETON** (SHEZHEN ETON AUTOMATION EQUIPMENT CO.,LED.)

We have our own **industrial park** and R&D team, and set up **subsidiaries** in Hong Kong, Jiangxi and Shenzhen.

We have an independent **R&D technical team** that can design the appropriate SMT line and other technical consultations for you

We are **ETON** (SHEZHEN ETON AUTOMATION EQUIPMENT CO.,LED.)

Goal: Create famous brand and build international Chinese enterprise

Core technology: high efficiency, high quality, high stability

Multiple patented technologies: 9 invention patents, 112 practical patents, 12 software

Our clients:

They come from more than 20 countries such as South Korea, India, Vietnam, etc., and occupy an absolute leading position in the LED market share.

We have been committed to seeking partners to create a [win-win situation](#), looking forward to your contact!

FAQS:

1. How long can be shipped after the order ?

After the order is placed, we will immediately prepare the goods, generally can be shipped within 1 month, except for customized products

2. Do you provide after-sales technical services?

Yes, we do. We can send professional engineers to the working site for equipment installation, adjustment, and operation training.

3.Are you a trading company or a factory?

We have the factory and we are committed to the R & D, production, sales and after-sales technical services of SMT high-speed patch.

4.What is the payment method?

L/C or TT.

5.Do you have your own R&D team?

Yes, we can customize products as your requirements.

Add: If you have any other questions, please do not hesitate to contact us, there is our contact information at the end, we will serve you 24 hours.
