

Advanced double module multi-functional high speed pick and place machine In SMT production line , smt mounter for PCB

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: china
- Brand Name: ETON
- Certification: ccc, ce, sira
- Model Number: HT-E5S
- Minimum Order Quantity: 1 unit
- Price: \$43,000.00/unit
- Packaging Details: waterproof material packing and wooden case
- Delivery Time: 30 working days
- Payment Terms: L/C, T/T
- Supply Ability: 80 units per month

Product Specification

- Pcb Size: 100*100 Mm~500*350 Mm
- PCB Thickness: 0.5~3 Mm
- PCB Clamping: Adjustable Pressure Pneumatic
- Mounting Mode: Group Picking And Separate Placing\separate Picking And Separate Placing
- Software: Windows 7
- Display: Touch Screen Monitor
- No. Of Camera: 2
- Power: 380AC 50HZ
- Power Consumption: 4 Kw
- Mounting Repeat Precision: ± 0.02 mm Chip
- Mounting Height: <36 Mm(component Max Height 20 Mm)
- Mounting Speed: 40000 CPH(optimum)
- No. Of Feeders: 36 PCS
- No. Of Modules: 40 Modules

Product Description

HT-E5S

Magnetic linear motor multifunctional pick and place machine

Magnetic linear design
High speed,
high precision

Fully upgrade mounting head
Min size:0402
Max height:36mm

Mounting speed more faster
40000CPH
Multiple sets of stitching
speed faster

Innovation for you, quality for soul

ETON multifunctional pick and place machine mouter of SMT line

Why you need a multifunctional pick and place machine?

Comparison of multifunctional machine and high-speed machine: the multifunctional machine has high placement accuracy and can mount a variety of components; the high-speed machine can only put on a specific product, but the placement speed is high. In the SMT chip production plant, multifunctional chip mouter and high-speed chip mouter are used together.

New attack, new breakthrough: 4 exclusive patented technologies, 4 major features, 3 major technical breakthroughs. Here you can find what you need!

4 exclusive patented technologies:

1. Electronic feeder feeding system
2. Vision alignment flight identification, mark correction
3. Non-stop material re-loading function
4. Auto-optimization after coordinates generated

4 core features:

1. Dual system,dual module multifunctional mouter. To produce two different products at the same time.
2. Mounting components: LED, capacitors, resistor, IC, shaped components,etc.
3. Component: Min. Size:0402, Max height:36mm
4. Application:power driver, electric board,lens,linear bulb, household appliance.

mount various types of products: capacitors, resistors, lenses, lamp beads, IC, heterosexual components, etc.

Application :

Electric board

Linear bulb

Household appliance

lens

serve SMT line solution:

1. Economical SMT Assembly line, suitable for LED light, middle PCB, TV

2. Hi speed SMT Assembly line, Suitable for GPS, Car PCB, DVD, Home Used PCB

3. High Speed SMT Assembly line, Suitable for Mobile phone, Laptop, GPS, Industrial PCB

4. DIP insert SMT Assembly line.

We have a professional **R&D team**, we can design the SMT line for you according to your needs, and the customer service 24 hours online to provide you with services without worrying about the time difference. If you have any questions, please call or log on our official website!

technical parameter:

Birth place	China
Model	HT-E5s
Dimension	1650*1200*1570mm
PCB	Max:500*350mm Min:100*100mm
PCB thickness	0.5—3mm
Mounting mode	Group picking and separate placing Separate picking and separate placing
Mounting precision	+0.02mm
Mounting height	<36mm
Mounting speed	4000CPH
Power consumption	4KW
No of feeders station	36
No of nozzles	10
XYZ axis drive way	High-end magnetic linear motor+servo motor

If you want to know more about its parameters, don't hesitate to contact us in private, we will serve you sincerely online at any time!

We also have other E series mounter machines for your reference!

	PCB	PCB thickness	Mounting speed	No. of feeders station	No. of nozzles	Mounting precision
HT-E5S	500*350 100*100	0.5-3	40000CPH	36	10	0.02
HT-E5D	500*300 100*100	0.5-3	80000CPH	72	20	0.02
HT-E8S	1200*350 100*100	0.5-5	40000CPH	36	10	0.02
HT-E8D	1200*300 100*100	0.5-5	80000CPH	48	20	0.02

From E5S,E8S to E5D,E8D, we can see that we have always insisted on continuous innovation, and strive to pursue high speed, high productivity, high precision.

E5S

E5D

E8S

E8D

Supplementary explanation:

Using 4 sets of imported cameras, more accurate flight recognition

Magnetic suspension linear motor instead of the original rotating motor, faster speed and longer life

Double modules, two different products can be mounted at the same time, one The machine can be used as two

Packaging & Shipping

Step 1: The plastic film adheres tightly to the package and is moisture-proof

Step 2: The film and the film are fixed on the base of the board

Step 3: Outer layer packaging

Step 4: Transportation

We promise: our packaging fully conforms to international packaging standards. If the packaging is found to be damaged after receipt, and it affects the use of the machine, you can contact us as soon as possible. Our customer service is available 24 hours online for you!

Multifunctional transportation:

ocean shipping

air transport

Ground transportation

you can choose any of the above transportation methods!

Sincere services:

Pre-sale service:

1. Provide machine related videos to let you know our machine directly.
2. We have a professional team of consultants who can answer any of your questions at any time.
3. If you have needs, you can visit the factory to learn about the machine. We will have professional technicians and international specialists to accompany you to ensure barrier-free English communication.

On-sale service:

As soon as your order is received, we will process it immediately and stock it up. After receiving the deposit, we will ship immediately.

After-sales service:

1. Provide manual / video for machine installation, adjustment, setting and maintenance.
2. If any problems occur and you cannot find a solution, please do not hesitate to contact us immediately, we will be at your service online at any time.
3. If you agree to pay the fee, our engineers and technicians can be dispatched to your country to provide services.
4. The machine is guaranteed for 12 months. During the warranty period, if there are any parts that are not artificially damaged. We will replace your new one for free. After the machine issues our bill of lading, the warranty begins.
5. We have an independent after-sales service team. In case of emergency, please call the salesperson or our after-sales manager. On-site maintenance or instructions can also be provided.

About us:

ETON (Shenzhen ETON automation equipment CO.,LTD.)

- 1.We are committed to the R & D, production, sales and after-sales technical services of SMT high-speed patch.
- 2.We are 13 years old this year , still younger, but we have won many prizes: the 4th China · LED Pioneer Award, National High-tech Enterprise, Industry Special Contribution Award...
- 3.We are still committed to R & D and innovation to continuously improve the speed and quality of the pick and place machine.
- 4.We are very happy to have many friends from all directions, we are also willing to make progress together with friends from all over the world.

Nationally certified well-known brand: has an independent R&D team, has achieved a number of technological breakthroughs, products are widely exported to South Korea, India, Vietnam, Egypt and more than 20 countries.

FAQS:

1. This is the first time I use this kind of machine, is it easy to operate?
There is English manual or guide video that show you how to use machine. Generally you can learn in two to three days.

2.If machine have any problem after I receive it, how can I do ?If the machine has quality problems that are not caused by humans, we will re-send you new replacements for free. However, the quality problem of the product itself generally does not occur, and each machine will be inspected by a person before the shipment.

3. How long can be shipped after the order ?

After the order is placed, we will immediately prepare the goods, generally can be shipped within 1 month, except for customized products .

4. What can we do for you?

Free placement machine installation, operation training, SMT production line plan design.

5. Are you a trading company or a factory?

We have the factory and we are committed to the R & D, production, sales and after-sales technical services of SMT high-speed patch.

6. Do you have your own R&D team?

Yes, we can customize products as your requirements.

7. How can I buy this machine from you? (Very easy and flexible !)

A. Consult us about this product on line or by e-mail.

B. Negotiate and confirm the final price , shipping , payment methods and other terms.

C. Send you the proforma invoice and confirm your order.

D. Make the payment according to the method put on proforma invoice.

E. We prepare for your order in terms of the proforma invoice after confirming your full payment.

And 100% quality check before shipping.

F.Send your order by air or by sea.

Add: If you have any other questions, please do not hesitate to contact us, there is our contact information at the end, we will serve you 24 hours.
