

## 1650MM Length 380AC 0.2mm Components SMT LED Machine

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

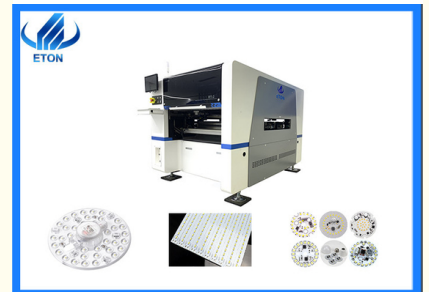

#### Basic Information

- Place of Origin: China
- Brand Name: Eton
- Certification: CE CCC ISO
- Model Number: HT-E5S
- Minimum Order Quantity: 1 unit
- Price: USD 72000-80000
- Packaging Details: Wooden box package
- Delivery Time: 30 work days
- Payment Terms: T/T

#### Product Specification

- Length: 1650MM
- Width: 1200MM
- Height: 1570MM
- Weight: 1200kg
- Power: 380AC 50Hz
- Components Space: 0.2mm
- Model: HT-E5S
- Function: Multi-functional
- Highlight: 1650MM Length SMT LED Machine,  
0.2mm Components SMT LED Machine,  
Pick And Place Equipment 380AC

## Product Description

### Single Module Multi-functional Pick and Place Machine SMT LED Machine HT-E5S

#### The function of pick and place machine

The placement machine is a device for high-speed, high-precision placement of components, and is the most critical and complex device in the entire SMT and production. The placement machine is a SMT device that uses patch devices. Now, the placement machine has evolved from an early low-speed mechanical placement machine to a high-speed optical centering placement machine, and it is a multi-functional, flexible connection. Modular development.

The purpose is to accurately place the chip components in the corresponding position, and then glue them with the previously applied red glue and solder paste, and then pass the reflow soldering furnace to fix the chip components on the PCB.

#### For SMT factory setup, we can do for you:

1. We provide full SMT solution for you
2. We provide core technology with our equipments
3. We provide the most professional tech service
4. We have wealthy experience on SMT factory setup
5. We can solve any question about SMT

#### LED Application

With the development of economic, LED lighting has a big development. It surrounded people. Where there is people there is light. So there are big markets on the LED lights. Like commercial lighting, home lighting, street lighting etc.

It shows that LED lighting has a very good and big demands. Business on LED lighting is a good business to success!
