

15mm Height 45000cph SMT Mounting Equipment For Tube / Bulb

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: HT-E8S
- Minimum Order Quantity: 1 set
- Packaging Details: Wooden pakage
- Payment Terms: L/C, T/T
- Supply Ability: 50 sets

Product Specification

- Name: Smt Machine/smd Mounting Machine/pick And Place Machine
- Warranty: 1 Year
- Mounting Mode: Group Pick And Group Mounting
- Speed: 45000 Cph
- Nozzles: 12 Pcs
- SMT Line: Automatic
- Highlight: **15mm Height SMT Mounting Equipment,
45000cph SMT Mounting Equipment,
CCC LED Tube Mounting Machine**

Product Description

SMT equipment for tube and bulb led lamp production line

SMD type

SMD component packaging is a packaging form of semiconductor devices. SMT involves a wide variety of parts and different styles. Many of them have formed industry-wide standards, mainly chip capacitors, resistors, etc.; many are still undergoing constant changes, especially IC parts, their packaging. The changes in form are endless and dizzying. Traditional pin packaging is undergoing the impact of a new generation of packaging forms (BGA, FLIP CHIP, etc.)

Standard parts are gradually formed during the development of SMT, mainly for parts with a relatively large amount. There are mainly the following types: resistance (R), exclusion (RA or RN), inductance (L), ceramic capacitor (C), Row capacity (CP), tantalum capacitor (C), diode (D), transistor (Q) [the part code on the PCB (printed circuit board) in brackets], the part type can be determined on the PCB according to the code. Generally speaking, the part code corresponds to the actual part.

SMT Equipment speed

For suitable for mounting all kinds of components, E8S can mount from 0402 to 17mm components and height is no more than 15mm.

The speed is fast with 12 heads, reach 45000 cph. It is our newest upgrade machine, hot on sell in all over the world.

Application

E8S apply to different industry, such as led bulb factory, led display factory, led strip factory, electrical factory, etc.

RFQ

Which currency you accept ?

A: Usually we accept USD and RMB. Other currency detail we can talk according to your situation

When can I got the machine after order ?

A: Usually need 30 working days for install machine and 30 days for shipping. So if you are interested, please contact us. Time is money!

How long warranty for this machine ?

A: It is standard warranty, one year. If you have much warranty time, we also support for buying.

How can I learn operate machine after I order ?

A: We support online teaching and also will send engineer to your country for
