

PCB Clamping Flexible Strip Light Making Machine SIRA

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1 set
- Packaging Details: Wooden package
- Payment Terms: L/C, T/T
- Supply Ability: 50 sets

Product Specification

- Name: Pick And Place Machine/led Lighting Making Machine
- Mounting Speed: 200000-250000 Chip Per Hour
- Mounting Components: Led Chip/resistor/capacitors/etc
- No.of Nozzles: 68 Pcs
- No.of Feeders: 68 Pcs
- Power Consumption: 6 KW
- Highlight: **Flexible Strip Light Making Machine,
PCB Clamping Strip Light Making Machine,
SIRA LED Strip Mounting Machine**

Product Description

Roll to roll strip light making machine

Suitable for all kinds of led chip

The most hot led chip in the market is 2835 and 5730 , apply to 25m or 50m roll to roll strip light.
Machine suitable for mounting all kinds of led chip 3014/3528/2835/5050/5630/5730/etc and resistor 0402/0603/etc/ and capacitor/shaped components.

High capacity with 250000CPH

T9 whole machine apply to two mounting modules with total 68 mounting heads, support group picking and group mounting, the X Aix using High-end magnetic linear motor , improve the machine speed and mounting precision.

Features of T9

Using special PCB Clamping mode: Vacuum adsorption, cylinder splint , adjustable track width.

Producing with 4 types materials at the same time with high capacity, available for 5m, 50m or any length of flexible strip roll to roll.

Calibration automatically, high precision, available for RGB

Parameter of T9

Length	3100 mm
Width	2300 mm
Height	1550 mm
Total weight	1700 kg
PCB length	250mm*any length
Mounting speed	200000-250000 CPH
No. of nozzles	68 PCS
No. of feeders	68 PCS

The market of flexible strip light

LED flexible light strips are flexible LED light strips. ETON believes that they are LED light strips with a relatively soft material. Compared with ordinary light strips, LED flexible light strips are more malleable and can be cut at will, making it easier to shape. The colors are also more vivid.

LED flexible light strips have been widely used in a series of fields such as home decoration, office lighting, landscape decoration, shopping malls and supermarkets. It is more and more popular for its softness, long life, environmental protection and energy saving, and high safety and reliability. The favorite of many consumers and friends
