

## SIRA 90000CPH SMT Pick And Place Machine 5mm PCB Adjustable

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: E8D-1200
- Minimum Order Quantity: 1 set
- Price: FOB USD 26000~86000/sets
- Packaging Details: Wooden case
- Delivery Time: 15~30 days
- Payment Terms: L/C, T/T
- Supply Ability: 50 pcs per month

#### Product Specification

- Name: Pick And Place Machine, led Light Assembly Line, Fully Automatic LED Production Line Of BSD-310FV
- Dimension: 3150\*2250\*1650mm
- PCB Clamping: Adjustable Pressure Pneumatic
- PCB Thickness: 0.5-5mm
- Speed: 90000CPH
- Power: 380AC 50 HZ
- Quality: 100% Test
- Warranty: 1 Year
- Power Supply: 50Hz, 380V
- Weight: 1692KG
- Highlight: 90000CPH SMT Pick And Place Machine, SIRA SMT Pick And Place Machine, 5mm PCB Led Making Machine

## Product Description

### Introducing brand

Our company ETON is set up in 2011, professional manufacturing of placement machines for 10 years, is the leading manufacturer of high-speed pick and place machine in China, the top brand company with CCC, CE, SIRA, ISO.

Our company has an industrial park equipped with advanced processing and manufacturing centers.

### Company quality principle

Company five level management policy: sincere business, focus on R&D, manufacturing intentions, considerate service, customer trust

ETON mission: professional, excellent technology, sharing the results

ETON goal: to create a national brand, build international Chinese enterprises

ETON's purpose: to create value for customers, creating benefits for society

ETON vision: determined to become the world's most competitive manufacturer and service provider of pick and place machine and high-end electronic testing equipment.

### Multifunctional pick and place machine E8D-1200

★ The machine HT-E8D-1200 with double module, total 24 head, each part 12 heads, can produce two types of product at the same time.

★ The X axis is magnetic linear motor, Y axis and Z axis is servo motor, very good performance and high accuracy.

★ It's intelligent, can product different types of LED light and electric board, such as tube, bulb, strip, panel, downlight, streetlight, power light

★ Its high precision, apply to LED chips, resistor, capacitor, IC, shaped component etc.

★ It is highspeed machine, the optimum speed is 90000 CPH.

### Technical parameter

Dimension	2550*1650*1550mm
weight	1700kg
PCB size	Max: 1200*300mm Min: 100*100mm
No. of camera	24 sets of imported camera
Mounting height	<15mm
Component	LED, capacitor, resistor, shaped component, etc.
Power consumption	8 KW
Optimum speed	90000CPH
Feeder station	48 PCS
Nozzles	24 PCS
X Y Z axis drive way	High-end magnetic linear motor and servo motor
Mounting mode	Group picking and separate placing, separat picking and separate placing
Mounting Space	0.2mm
Mounting Precision	±0.04mm
Feeding way	Electric feeder with double motor

### Operate system

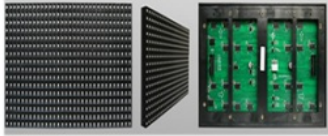

Machine is very intelligent and easy to operate, like the intelligent phone, also the software is made by our company, more intelligent and operate.

System	Windows 7
Software	R&D independently
Display	Touch screen monitor
Input device	Keyboard, Mouse

### Machine application

The machine E8D-1200 can product different types of LED light and electric board, such as tube, bulb, strip, panel, downlight, streetlight, power light.

## Machine for all products

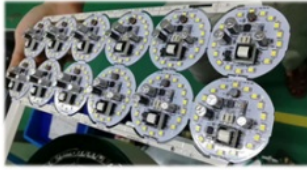

LED Display

Downlight

Flexible Strip

DOB Bulb

LED Bulb

Street Light

LED Lens

Driver

Panel

Tube

Solar lamp

### About our industrial park

We have our own industrial park, 50000 SQM, Equipped with the most advanced processing and manufacturing center, quality is checked from the source, and the production process is further standardized and streamlined. there are production center and R&D center and quality inspection centre to guarantee the machine quality.

### 50000 SQM Industrial Park

### SMT line

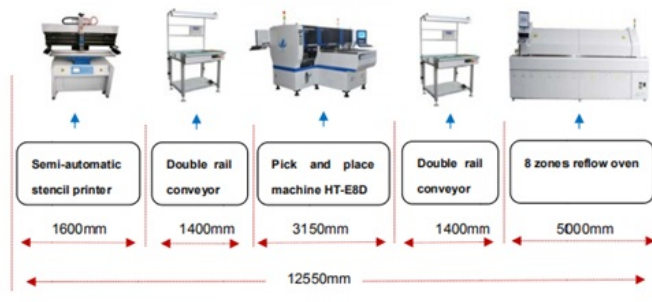

In the SMT line, a SMT production line is composed of different machines

First, Stencil printer

Second, pick and place machine

Third, Reflow oven and Conveyor, etc

### ETON - HT-E8D-1200 Semi-automatic Production Line

### Payment&delivery&shipping

The payment method we usually support is T/T

The delivery is within 30 days after receiving the deposit!

### After sales service

Maintenance period:1 year(during the period,any parts need to be repaired and replaced will be free.)

Software are R&D independently and provide upgrade it for free a lifetime

We provide free install and training

Our company has service offices in Turkey and India,which can provide you with the greatest convenience.
