

1.5KW Epoxy Resin Automatic Glue Dispensing Machine PU UV PVC AB

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: HT-D12-1200
- Minimum Order Quantity: 1 Set
- Packaging Details: wooden box with vacuum package
- Delivery Time: 30 days after deposit
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Software: R&D Independently
- Heating Temperature: 200
- Display: LED Monitor
- Dimension: 1800*1050*1550mm
- Power: 220AC 50Hz
- Power Consumption: 1.5KW
- System: Window 7
- Highlight: **LED Automatic Glue Dispensing Machine,
1.5KW Automatic Glue Dispensing Machine,
UV PVC Automatic Glue Dispenser**

Product Description

visual automatic silicone paint epoxy resin PU UV PVC AB hot melt doming LED automatic glue dispensing machine

What is Automatic glue dispenser machine?

The glue dispenser is also called the glue spreader, which specifically controls the fluid. The automatic machine that drips and coats the fluid on the surface of the product or the inside of the product can realize three-dimensional and four-dimensional path dispensing, precise positioning, precise control of glue, no drawing, no leakage, no glue. The glue dispenser is mainly used to accurately point, inject, apply and drop glue, paint and other liquids in the product process to the precise position of each product. It can be used to achieve dot, line, round or arc shape.

Features:

- 1.English interface option, easy to operate
- 2.CCD positioning system, visual positioning compensation automatically, correct the deviation of PCB.
- 3.Large size track, suitable for different size of PCB.
- 4.Contactless high speed injection dispensing head, dispensing glue continuously with high efficiency.
- 5.Intelligent dispensing head ensure good performance ,high efficiency and lower glue wasting .
- 6.Full time monitoring of glue volume, auto prompting low glue volume .
- 7.Dispensing head constant temperature function, ensure the glue in liquid.
- 8.Control the dispensing value in milliseconds, ensure the conformity of glue volume.
- 9.Online visual programming, load CAD easily more convenient .
- 10Automatic program standby, start up production rapidly, intelligent manufacturing .
- 11.Apply to various kinds (round, linear, lattice etc.) of products.
- 12.High performance linear servo motor drive for X,Y,Z axes, ensure high accuracy in high speed.
- 13.Universal signal connecting, connect equipment online easily.
- 14.Large capacity SSD industrial control system ,high speed access ensures system response speed.

Technical parameter

	HT-D12-1200
L*W*H	1800mm*1050mm*1550mm Total weight: 800kg
Max PCB size	1200*500mm
PCB clamping	Adjustable pressure pneumatic
Dispensing mode	Pneumatic injection value
Display	LED Monitor
System	Windows 7
Software	R&D independently
Input Device	Keyboard, Mouse
No of Camera	1 set industrial camera
Dispensing accuracy	0.1mm
Dispensing height	15mm
Dispensing speed	90000 CPH
Transmission direction	Single
Electrical control	Independent research and development by ETON
1set Motion control card	Independent research and development by ETON

Our company:

Shenzhen ETON Automation Equipment Co., Ltd. was established in 2011. It is a national high-tech and dual-soft enterprise dedicated to the integration of R&D, production, sales and after-sales technical services of SMT high-speed placement machines. The company has always insisted on "creating a national brand, The goal of building an international Chinese enterprise is committed to providing customers with "professional, efficient and low-consumption" SMT automatic placement machines.

Our company have obtained a number of national patent certificates and support, including 9 invention patents, 112 utility patents, and 12 software copyright patents. Today, we have provided services to more than 20 countries at home and abroad, and enjoy a good reputation.

Looking forward to the future, we believe that ETON will surely achieve better results in the field of SMT patch and make greater contributions to the industry and society!

50000 m² factory, 45000 m² production workshop, International level management.

China Top brand, the leading manufacturer of SMT machine.

Global fastest machine, 250000CPH New world record. Own R&D team

Mode of transport

● Sea Transportation:

It has strong traffic capacity, large transportation volume, cheap and convenient.

● Railway Transportation:

Convenient, accurate departure time, relatively stable operation, safe and reliable.

● Air Transportation:

The fastest method of transportation, used of expedited parcels.

Q1: What services can you provide?

A:

1. We have local India engineer, As long as you buy the machine, we will arrange engineers to install, debug and training you for free, until you learn to operate the machine, service is very convenient. We have offices in Mumbai and New Delhi, very quick to support.
2. Chinese engineers provide online services
3. If necessary, Chinese engineers will come to your factory for free install and training
4. Besides India, We also have local engineers in Egypt, Turkey. Can provide you with timely services.

Q2: What is the shelf life of the machine?

A:

For 1 year, any parts that need to be repaired and replaced within one year are free. In addition, if you purchase our machine, you will enjoy free upgrades of the machine software for life.

Q3: It's hard to use the machine?

A: No, not at all. For our previous clients, at most 5 days is enough to learn to operate the machines.

Q4: Does your machines have quality certificates?

A: We are high-tech enterprise with CE, SIRA, CCC, ISO awarded as "Well-know brand" and many technology patents, and have rich experience (more than 10 years) in LED light production line program.

Q5: What's the terms of payment? What about the trade term?

A: T/T. You can choose FOB Shenzhen.

Welcome to contact me!!!
