

AC220V 50Hz Smt Loader Machine In LED Light Production Line

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE,CCC
- Model Number: LD250
- Minimum Order Quantity: 1 set
- Price: FOB USD 10000/sets
- Packaging Details: Our packing is made of wooden box with vacuum package, and we promise to deliver the goods within four weeks after payment.
- Delivery Time: 30 work days after deposit
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Name: Loader Machine
- Dimension: 1455*800*1200 Mm
- Software: R&D Independently
- Warranty: 1 Year
- Weight: 140kg
- Condition: New
- Power Supply: AC220V 50Hz
- Highlight: 50Hz Smt Loader Machine,
AC220V Smt Loader Machine,
AC220V pcb loader machine

Product Description

AC220V 50Hz Smt Loader Machine In LED Light Production Line

Loader machine introduction

The board loading machine is also called the board feeding machine and the feeding machine. It is a kind of production equipment that needs to be used in the SMT production and processing of electronic products. Its main function is to place the unmounted PCB boards in the SMT board loading machine. The board arrives at the board suction machine, and then the board suction machine automatically places the PCB on the track of the solder paste printing machine and uploads it to the solder paste printing machine for solder paste operation.

The SMT automatic loading machine is used at the source of the SMT production line. According to the requirements of the rear equipment, the PCB plates stored in the circulating box will be transferred to the production line one by one. When all the PCB plates in the circulating box are transferred, the empty circulating box will be automatically downloaded and replaced with the following fully loaded circulating box.

The features of Loader machine

- 1.The device of loading PCB in the SMT production line;
- 2.PLC control, color man-machine interface operation;
- 3.Adopting the structure of stepping motor to push the board, the force and speed of the pushing board can be adjusted;
- 4.Auxiliary positioning brake system, accurate positioning, fast rising and falling speed, high production efficiency;
- 5.Multiple electrical distribution circuit protection, safe and reliable;
- 6.Acousto-optic alarm system, abnormal information text prompt, easy operation and maintenance;
- 7.Standard SMEMA signal communication mode.

Fully automatic loader	LD250
Description	This equipment is used for the board loading operation of the circuit board in the production line
Number of turnover boxes	One box on working,two boxes out of frame segment,two boxes Into the frame segment(Or customer specified)
Send board time	Around 6s
Frame change time	Around 25s
PCB Thickness	0.4~3.0mm
step pitches Selection	1~4(10mm step pitches)
Transmission Height	900±20mm
Transmission Direction	Left→Right,Right→Left
Power Consumption	Single-phase AC110~220V (optional), maximum 300 VA
Air pressure and Air flow	4~6Bar,Up to 1 L/min
Specification parameter	
PCB size L*W(mm)	80*50-330*250
Dimension(L*W*H)(mm)	1455*800*1200
Size of Turnover frame(mm)	355*320*565
Approximate Weight(kg)	About 140

After Services

Professional sales manager of LED SMT machine, provide professional suggestion and service to you !
24 hours online service and technical support, solve your questions quickly!

Sound company organization and working system, guarantee you a fast delivery!
Design and provide the whole SMT processing lines for you based on your budget , workshop covering area with best prices!

RFQ

Q : Is there any quality guarantee?

We stick to quality first, client-oriented, Continuous improvement!

Q: What is SMT Machine?

This is an LED lamp patch machine using surface mount technology.

Q: Whether the machine's after-sale service is guaranteed?

Each of our machines has a one-year warranty and will regularly visit customers for use.

Q: What we can do for you?

A: We provide SMT machine, we can also provide Production line scheme and so on. Professional Technical Support and Service.

Q: What is your delivery date?

A: The delivery date is about 25-30 days after receipt of deposit.

Q: What is your payment terms?

A: 30% deposit and 70% balance before shipment.

Q: This machine is easy to use ? if I have no experience, I can also operate it well ?

A: Yes, our machine is designed to use easily, Normally it will take you 1 day to learn how to operate, if you are a technician, it will much faster to learn.
