

Eight Zones Reflow Oven Machine Smt Automatic Soldering Equipment

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: ET-R8
- Minimum Order Quantity: 1 set
- Packaging Details: Wooden package
- Payment Terms: L/C, T/T
- Supply Ability: 50 sets per month

Product Specification

- Machine Name: Reflow Oven Machine/ Soldering Machine/ Smt Machine
- Machine Zones: 8 Zones
- Machine Dimension: L5000*1300*1450 Mm
- Net Weight: 1500 Kg
- Initial Power: 68 KW
- Operating Power: 16 KW
- Highlight: **Eight Zones Reflow Oven Machine,
8 Zones Reflow Oven Machine,
Eight Zones smt reflow machine**

Product Description

Eight Zones Reflow Oven Machine Smt Automatic Soldering Equipment

Eight zones reflow oven machine smt automatic soldering in smt line

Reflow oven machine features

1. This module is eight zones soldering oven, big capacity than 6 ovens, very suitable for big factory .
2. The mesh width of oven machine is 350mm, support different sizes PCB products.
3. Machine is high quality with unique advanced heating system with long life
4. Reliable and smooth transmission system, symmetrical double groove guide rail, high temperature resistance, no deformation, small heat absorption. Standard chain, network chain synchronous iso-speed parallel transportation, dual rail transportation system or central support system is optional.

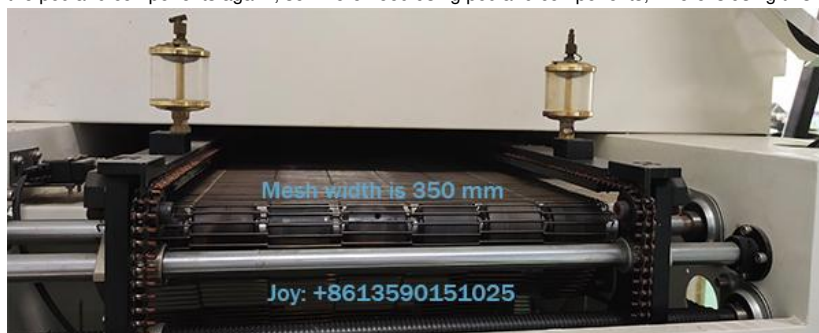

Reflow oven machine parameters

Machine name	Reflow Oven machine/ smt machine/ Soldering machine
No. of heating temperature zones	The top 8 small cycle heating area, the bottom 8 small cycle heating area
Heating mode	Plane winding type heating on both sides of the generator, pressurized air duct, point to point frequency conversion motor heat exchange, frequency conversion motor drive
Length of heating zone	2800 mm
Number of cooling zone	2+1 (natural air cooling system)
Length of cooling zone	1100 mm
Transmission belt width	500 mm
PCB Size	50-350 mm
Dimension	L5000*1300*1450 MM
Net weight	1500 kg

Machine application

SMT Line is included many different machines, such as the pick and place machine, stencil printer machine, conveyor, loader, Un-loader, Reflow oven machine, etc.

Reflow oven machine is widely applied to electrical products and led lighting industry, cause it is function is heating the solder paste to connect the pcb and components again , so where need using pcb and components, where is using this machine.

FAQ

1. I don't have smt line before, what kind of machine we need to buy ? And which kind of raw material need ?

A: Dear Client, for smt line, main machine included pick and place machine, stencil printer, reflow oven and conveyor machine. Different product will have different line design , so if you want to know more about the line of your product, please contact us by fellow contact and also we will share the list of raw material required in this line.

2. Do you provide video check for mounting test ?

A: Yes, we are the R&D manufacturer of SMT machine, we could support the machine test before shipping, it is no problem.
