

AC110V Led Light Pcb Loader Machine PCB Stacking Loader In Smt Line

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE,CCC risa
- Model Number: DP-330
- Minimum Order Quantity: 1 set
- Price: FOB USD 3600~6000/sets
- Packaging Details: Our packing is made of wooden box with vacuum package, and we promise to deliver the goods within four weeks after payment.
- Delivery Time: 30 work days after deposit
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Name: PCB Stacking Loader
- Dimension: 600*800*1200 Mm
- Software: R&D Independently
- Warranty: 1 Year
- Weight: 90kg
- Condition: New
- Power Supply: AC110~220V
- Type: SMT Machine Related Products
- Application: LED Bulb Assembly Machine
- Programme Method: Automatic Data Import/ Video Study/ Keyboard Input
- Highlight: **Led Light Pcb Loader Machine, AC110V Pcb Loader Machine, Led Light smt loader machine**

Product Description

AC110V Led Light Pcb Loader Machine PCB Stacking Loader In Smt Line

Product features of PCB Stacking loader

Adopt automatic PLC control,Fuji button operation;
Sheet metal weighted structure, Stable and reliable;
Straight-through and stacked board working modes are optional;
Using titanium steel pushing board blade, strong elasticity, not easy to deform;
Standard SMEMA communication mode;
Match a variety of receiving modes.

Loader machine introduction

The board loading machine is also called the board feeding machine and the feeding machine. It is a kind of production equipment that needs to be used in the SMT production and processing of electronic products. Its main function is to place the unmounted PCB boards in the SMT board loading machine. The board arrives at the board suction machine, and then the board suction machine automatically places the PCB on the track of the solder paste printing machine and uploads it to the solder paste printing machine for solder paste operation.

Technical parameter of PCB Stacking loader

Description	This equipment is used for sending circuit boards without components automatically to the production line
Send board time	About 6 Seconds/customer specified
PCB Thickness	Maximum 0.8MM
PCB Capacity	Maximum: 150PCS(0.8mm)
Power consumption	Single-phase AC110~220V (optional), maximum 150 VA
Air pressure and air flow	4~6Bar,Upto 10 L/min

PCB Stacking loader pictures

For SMT factory setup,we can do for you:

1. We provide full SMT solution for you
2. We provide core technology with our equipments
3. We provide the most professional tech service
4. We have wealthy experience on SMT factory setup
5. We can solve any question about SMT

After Services of pcb stacking loader

Professional sales manager of LED SMT machine, provide professional suggestion and service to you !
24 hours online service and technical support, solve your questions quickly!
Sound company organization and working system, guarantee you a fast delivery!
Design and provide the whole SMT processing lines for you based on your budget , workshop covering area with best prices!

RFQ of stacking loader

Q : Is there any quality guarantee?

We stick to quality first, client-oriented, Continuous improvement!

Q: What is SMT Machine?

This is an LED lamp patch machine using surface mount technology.

Q: Whether the machine's after-sale service is guaranteed?

Each of our machines has a one-year warranty and will regularly visit customers for use.

Q: What we can do for you?

A: We provide SMT machine,we can also provide Production line scheme and so on.Professional Technical Support and Service.

Q: What is your delivery date?

A: The delivery date is about 25-30 days after receipt of deposit.

Q: What is your payment terms?

A: 30% deposit and 70% balance before shipment.

Q: This machine is easy to use ? if I have no experience, I can also operate it well ?

A: Yes, our machine is designed to use easily, Normally it will take you 1 day to learn how to operate, if you are a technician, it will much faster to learn.
