

NEW LOOK RT-1 Magnetic linear motor 40000 CPH pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: RT-1
- Minimum Order Quantity: 1 Set
- Packaging Details: wooden box with vacuum package
- Delivery Time: 30 days after deposit
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Dimention(mm): 1200*1930*1500
- Total Weight: 2000kg
- PCB Length Width: MAX:450mm*350mm MIN:80*80mm
- PCB Thickness: 0.1-6mm (if<0.6mm Need Jig)
- Mounting Precision: ± 0.04 mm
- Mounting Speed: 40000CPH
- No.of.feeders System: 32PCS
- No.of .head: 10PCS
- Components: LED Chip, Capacitors, Resistors, IC, Shaped Componets. Etc.
- Feeding Way: Electric Feeder With Double Motor.

Product Description

10pcs nozzle head
40000 cph mounting speed
2pcs camera

NEW LOOK RT-1 Magnetic linear motor 40000 CPH pick and place machine

The Pick and place machine is the placement equipment used in the production of SMT. Now, the placement machine has developed from the early low-speed mechanical placement machine to the high-speed optical centering placement machine, and to the **multi-functional** and flexible connection Modular development.

Product Description

Features

Each nozzles control by each **servo motor**, ensure mounting so precision and highspeed.

Magnetic linear motor is good for mounting head move, more correct and quickly. ensure the machine have long life.

Wide-use, this machine can making led bulb, DOB bulb, led display, led tube, power driver, etc.

The MAIN Part is from well-known brand, such as Grating scale imported from UK RENISHAW, The electromagnetic valve Imported from Japan SMC, Vision camera, **mark correction**, vision alignment flight identification.

NEW LOOK RT-1

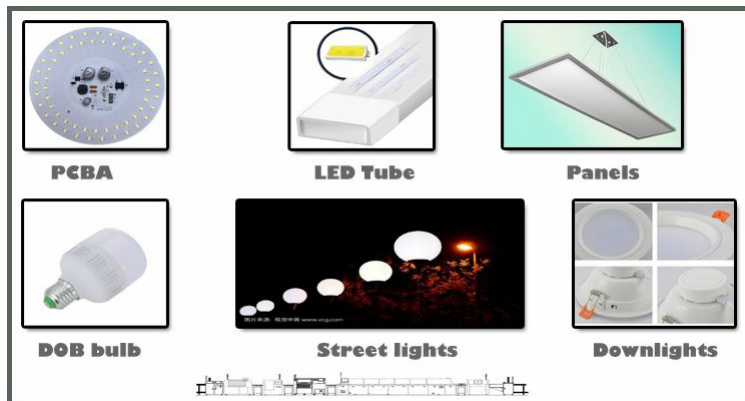

Technical Parameter

Model	RT-1
PCB length width	MAX:450*350mm MIN:80*80mm
System	windows 7
No.of camera	2PCS
Components	LED chip, capacitors,resistor,shaped components, etc.
No.of head	10PCS
No.of feeders station	32PCS
Feeding way	electric feeder with double motor
XYZ Axis drive way	1200*1930*1500
Dimension	High-end magnetic linear motor+servo-motor

Application

Many kinds of led lights, RT-1 suitable for it. mouting componets on PCB board, components have led chips, capacitors, resistors, IC, shaped componets, etc. this machine can make led bulb, linear bulb, DOB bulb, display, panels, tube, street lights, and so on.

Customer's Workshop show

Many domestic and foreign customers to reach a long-term cooperation with ETON, show the customer factory to you. LED strip light production line, the machine is highspeed pick and place machine, The fastest machine, can reach 25W CPH. LED display, bulb, lens production line, Multi-funcatonal pick and place machine, such as RT-1, E8S, Electric feeder with double motor. ETON got large more than 80% big led lighting industry market in China. Exported to more than 20 countries & regions.

Company

ETON is a manufacturer, over 50000 square meter Industry Park, has stronger Manufacturing capacity, provide smt line solution, focusing on R&D, production, sales and service of SMT high-speed /Multi-functional pick and place machine and SMT peripheral automatic equipment.

ETON

Top Brand in China

Professional R&D Team

Over 10 years

Industry Park

Show room

Workshop room

SMT machine

ETON SMT peripheral Machine in the below, also have placement machine, high quality and intelligent machines; provide smt production line solution based on customer factory area. Improve the product quality and production efficiency.

FAQ

Do you have local clients and customer in India?

Yes, we have. Share a few of our representative customers to you: SURYA, CEPL, POLICAB, FIEM, CALCOM, NTL, RK.

What about your Delivery time?

ETON is big company, Industry park over 50000 square meter, stronger Manufacturing capacity, some machine is in stock. if the machine is in stock, we can arrangement delivery immediately after get customer payment.

Since it is a fully automatic printing machine, how do you add solder paste and change the stencil?

You still have to manually add solder paste and change the stencil. Fully automatic does not refer to this aspect, but after you set the program (such as: the length and width of the track, the angle of the scraper, etc.), the printing machine can automatically perform Printing, without manual loading and unloading etc.

What machine can I buy from you?

Multi-function pick and place machine, high-speed pick and place machine, dispensing machine, loader machine, stencil printer , reflow oven, etc.

I want to produce led display, does your machine suitable for produce this product?

Yes, we could provide whole SMT Line for led display manufacturing, include stencil printer machine, pick and place machine, reflow oven machine, conveyor machine, etc
