

Roll to roll super speed 180000 CPH LED strip light pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: HT-T7S
- Minimum Order Quantity: 1 Set
- Packaging Details: wooden box with vacuum package
- Delivery Time: 30 days after deposit
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- No. of Camera: 5PCS Digital Camera)
- PCB Length Width: 250mm*any Length
- Model: HT-T7S
- Mounting Mode: Group To Pick And Group To Mount
- PCB Thickness: 0.5-1.5mm
- Mounting Height: ≤5mm
- Mounting Speed: 150000-180000CPH
- Components: LED 3014,3020,3528,5050 And Capacitors, Resistor, bridge Rectifiers.etc.
- No. of Feeders Station: 68
- No. of Head: 34

Product Description

Roll to roll super speed 180000 CPH LED strip light pick and place machine

The high-speed placement machine is a very complex high-precision and high-tech machine, which must be installed on a flat and hard floor, a clean environment, and work under constant humidity and temperature.

Our Company

ETON more than 10 years experience in SMT machine, Own Industry Park 50000 square meter.

3H: "High efficiency" "High quality" and "High Stability" are the core technology of ETON.

Many Patent: 9 invention Patents, 112 practical patents, 12 software copyrights.

We are the original inventor of the roll to roll making machine.

We invented the first roll to roll machine in 2011. the machine updated many types.

Our Product Introduction

ETON professional SMT manufacturer

China Top 1.

Full SMT solution

Fastest machine 250000CPH

Product Detail

Excellent machine spare part, big brand.
 Exclusive patent for placement machine, Group to pick and group to mount.
 Mounting RGB, high precise.
 Unlimited length available.

High speed pick and place machine

PCB size: 250 * any length

No of head: 34 PCS

Mounting speed: 15W-18W CPH

No of camera: 5 PCS

Components: LED 3014/3020/3528/5050 and resistor, capacitors, bridge rectifiers, etc.

HT-T7S

Application: LED strip light

High precision magnetic linear motor
Customized from Israel technology

Ball Screw
TBI Brand from Taiwan, China

Guide rail
Imported from Japan THK

Technical Data

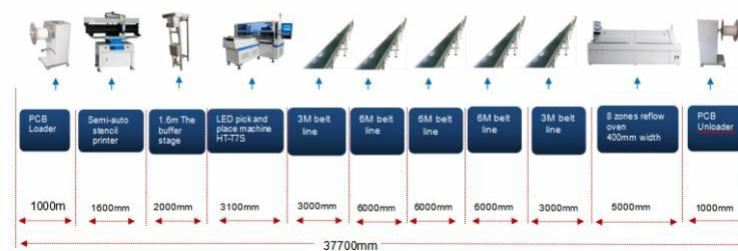

Type	HT-T7S
Dimension(mm)	3100*2300*1550
Camera	vision alignment, mark correction
PCB SIZE	250mm*any length

Power	380AC. 50Hz
No.of feeders station	68 PCS
transmission mode	online drive
Electrical control.	independently research. and development by ETON
Mounting. Speed	180000. CPH

Professional SMT production. Line

Highly meet customer needs, RICH experience r&d team, wonderful service, update machines with great. quality, technology. Roll to roll production is not same as normal pick and place line, it need whole technology and technical craft and good experience, machine performance, professional team and service is very important.

ETON - HT-T7S 100m Semi-automatic No-wire flexible strip Production Line

Exhibition IN many country

Every year we'll open exhibition show in kinds of country, kinds of country clear know ETON is big brand. And our product import to more than 20 counties.

ETON EXHIBITION GO TO India, Egypt, Pakistan, Tunisia, Vietnam, Thailand, Germany, Russia and other countries and regions.

Customer factory

80% big brand in China

FSL/YANKON/OPPLE/KLITE/TOSPO/HELI/NVC/XSY/MLS/SHILIN

Other country

Surya, RK; Unistar; ZTS, Rang Dong, etc. Big brand

FAQ

Can I pay by L/C?	Recommend T/T, L/C payment is complicated, waste a lot of time on payment.
Can you suggest a suitable machine for LED light?	We have many types of machines that can be produced. Can you share pictures of your products ?
Please introduce to me a good partner of FPCB	For this, We can recommend the supplier to you.
I want to discuss with you about the assembly machines	I would advise you not to buy assembly lines yet because assembly lines are very expensive, it can be assembled manually first.
