

High capacity of 45000 CPH with 12 heads SMT mounter pick and place machine

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Eton
- Certification: CE, CCC, SIRA
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1 set
- Packaging Details: Packing in film package and foam cotton, and covering vacuum bag within sturdy wooden boxes.
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Condition: New
- Dimension: 2550*1650*1550 Mm
- Feeders: 28 Pcs
- Pcb Thickness: 0.5-5mm
- Speed: 45000 CPH
- Positioning Accuracy: ± 0.04 mm
- PCB Size: Max:1200*500 Mm Min:100*100 Mm

Product Description

Machine imageHigh capacity of 45000 CPH with 12 heads SMT mounter pick and place machine

Description

HT-E8S-1200 which is one of our multifunctional SMT machine, that can mount different components and products in LED market. Here are some tips of it:

Mounting components:LED chip, capacitors, resistors, IC, shaped components, lens, etc.

Component:Max height: ≤17 mm; Min size 0402

Application: Power driver, electric board, lens, DOB bulb, linear bulb, household appliance, etc.

Machine main features

Single module magnetic linear motor multifunctional pick and place machine.

Mounting components:LED chip, capacitors, resistors, lens, IC, shaped components, etc.

Component: Min. Size 0402, Max. Height 15mm.

Vision alignment flight identification, Mark correction.

Non- stop material re-loading function.

Application: Power driver, electric board, lens, DOB bulb, linear bulb, household appliance etc.

Machine main parameter

Model	HT-E8S-1200
PCB length width	Max:1200*500mm Min:100*100mm
PCB thickness	0.5-5mm
PCB clamping	Adjustable pressure pneumatic
Mounting mode	Group picking and separately placing, Separately picking and separately placing
Mounting precision	±0.04mm
Mounting speed	45000CPH
No. of feeders station	28PCS single module
No. of head	12 PCS single module

Spare parts

Packages

Package of the machine is an imperative part for keep the quality of the machine when during transportation till the destination of our clients, so making sure of a qualified and sturdy packing is a key mission for us, here are the specified steps for your reference:

Step 1: Pack the machine in a foam cotton and stretch the film to protect the outside of it. Step 2: vacuum paper package and moisture proof bag, to keep dry of the machine during transportation to prevent moisture.

Step 3: Each exported machine will be equipped with sturdy wooden boxes, to ensure the safety of the machine.

Package

Step 4: Transportation by trucks to the specified port. For the feeders and some spare parts usually we'll pack it separately with box.

Shipping and Delivery

There are three ways for the transportation of the machine, like air freight, land transportation, shipping by sea etc, and they are for the different situations and the needs of our customers.

Air freight:
for urgent good, and it is the most expensive transportation way;

Land transportation:
suitable for inland countries and it is affordable;

Shipping:
It's suitable for heavy goods, and the convenience and lower cost of shipping which is easy for clients to accept the arrival time of the goods.

FAQ

Q1. What is your usual payment term?

A1. Our usual payment term is T/T, that requires to pay 30% in advance, and pay the balance off before the delivery of the goods.

Q2. How many components can your pick and place machine mount in a PCB board?

A2. While this is for our clients needs and the size of the PCB board.

Q3. Whether you have professional engineers for installation of the machine in India?

A3. Yes, we have professional engineers in India to provide considerable service to our clients.

Q4. How can I contact you to buy the goods in an efficient way?

A4. Making enquiry of the products you want on the trading platform of Alibaba, Tradelink, foreign trade Express, or contact us with the social software as Whatsapp, Skype, etc.
