

2700mm SMT Mounter Machine Pick And Place Machine For 1.2m Linear Tube

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-F7S
- Minimum Order Quantity: 1 set
- Packaging Details: Packing in film package and foam cotton, and covering vacuum bag within sturdy wooden boxes
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Power Supply: 380 AC 50Hz
- Condition: New
- Weight: 1700kg
- Mounting Speed: 150000-180000 Cph
- Feeders: 68 Pcs
- Pcb Thickness: 0.5-5 Mm
- Positioning Accuracy: $\pm 0.02\text{mm}$
- Highlight: 2700mm SMT Mounter Machine,
1.2m Linear Tube SMT Mounter Machine,
380V AC Pick And Place Machine

Product Description

R&D independently mounter 2700 mm for 1.2m linear tube pick and place machine

Description

High speed mounter HT-F7S apply to various components as led 3014/3020/3528/5050, and resistors, capacitors, bridge rectifiers, etc, for the products, it apply to 0.6m, 0.9m, 1.2m rigid PCB and 0.5m, 1m led flexible strip, furthermore, it can produce 2-4 types of materials at the same time with high capacity.

Machine main features

Apply to the 0.6m, 0.9m, 1.2m rigid PCB and 0.5m, 1m LED flexible strip, producing with 4 types materials at the same time with high capacity, available for board with any proportion of LED chip and resistor.

Calibration automatically, high precision, available for RGB.

Exclusive patent technology: Group picking and group mount placing.

IPC9850 capacity: 200000-250000 CPH

Machine parameter

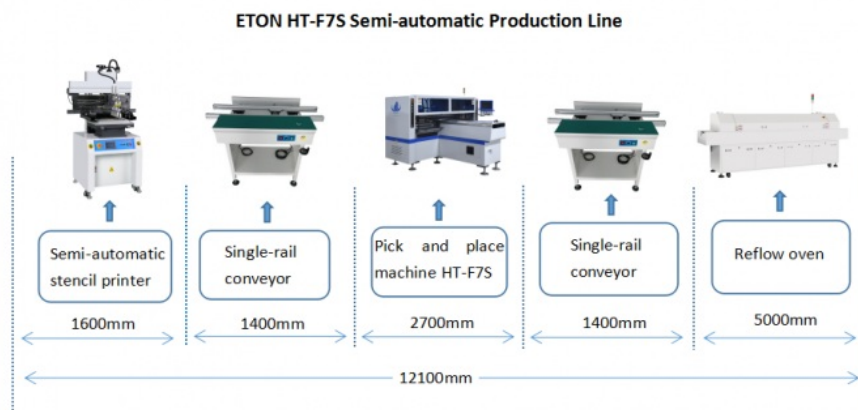

Model	HT-F7S
PCB length width	Max: 1200*330mm Min: 100*100mm
PCB thickness	0.5-5mm
PCB clamping	Adjustable pressure pneumatic
Mounting mode	Group picking and group placing
Mounting precision	±0.02mm
Mounting speed	150000-180000 CPH
No. of feeders station	68 PCS
No. of head	34PCS

SMT Line solution

A whole semi automatic line which needs several devices for a whole semi production, as semi auto stencil printer machine, conveyor, pick and place machine and reflow oven etc.

The blowing is the function of each machine:

- 1.Semi auto stencil printer is aim of leaking solder paste or patching adhesive onto the solder pad of PCB to prepare for the welding of components;
- 2.Conveyor is used for the connection between SMT production lines, as well as buffering, testing, testing PCB boards or manual plug-in of electronic components;
- 3.Pick and place machine is to mount light beads or other surface mounted components at the designated position of PCB board
- 4.Reflow oven is to melt the solder paste to fix and bond the components and PCB board.

Certificates

Our certificates

• 9 Invention Patents

• 12 Software Patents

• 112 Practical Patents

Shipping and Delivery

As delivery of the goods here are the three aspect for the transportation way:

Air freight:

for urgent good, and it is the most expensive transportation way;

Land transportation:

suitable for inland countries and it is affordable;

Shipping:

It's suitable for heavy goods, and the convenience and lower cost of shipping which is easy for clients to accept the arrival time of the goods.

FAQ

Q1. Can you arrange your engineers to our country for a training of the machine?

A1. Yes, our clients enjoy a free training for the machine as installation, maintenance etc.

Q2. How long is the machine maintenance period, whether it is free?

A2. The maintenance period of our machine is 1 year and its free for our clients.

Q3. How can I get an optimal line for our product?

A3. As the needs of the whole line solution, we will provide our professional suggestion and a whole line production for our clients, as to provide a suitable plant layout.

Q4. What is the payment term?

A4. We use T/T as the payment term.
