

## LED multifunctional high precision recognition 10 heads smt pick and place machine

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: RT-1
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum package, wooden case
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets/month

#### Product Specification

- Dimension: 1200\*1930\*1500mm
- Weight: 2000kg
- PCB Size: Max 450\*350mm
- PCB Clamping: 0.1-6mm(if <0.6 Need Jig)
- Camera: High Precision Recognition
- Mounting Precision: 0.04mm
- Mounting Speed: 40000CPH
- Power: 380AC 50HZ

## Product Description

### LED multifunctional high precision recognition 10 heads smt pick and place machine

#### Machine parameter RT-1

Model	HT-RT-1
Max applicable PCB size	450*350mm
Visual camera	High-precision recognition
Feeder	32PCS
Applicable component	Smallest size: 0402 Highest size:17mm
Power supply	380V
Machine dimension	1200*1930*1500mm

#### Main Feature

1. Control system: High-end magnetic linear motor and servo motor.
2. Vision system: Flight alignment camera and Mark camera.
3. Ten placement heads can pick up and calibrate at one time.
4. Built-in computer main board, the monitor, key board and mouse will ship with machine.
5. Free to upgrade software and provide technology support for life.

#### Company show

We are one of leading manufacturer of SMT machines in china. Our main products are SMT highspeed pick and place machine and SMT peripheral automation equipment. The company has SMT high-speed pick and place machine division, precision solder paste stencil printer division, high-speed precision dispensing equipment division, and SMT peripheral automation equipment division.

The park covers an area of 52000 square meter.

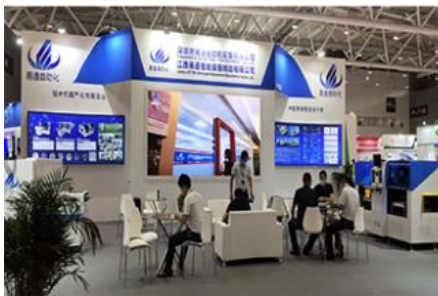

Shenzhen office

### Exhibition Show

Our company will participate in various exhibitions every year, such as Shanghai Munich exhibition, Guangzhou Guangya exhibition, Chongqing LED exhibition, Thailand exhibition, Turkey exhibition, India Mumbai exhibition, India Delhi exhibition, etc.

### Service

Top R&D team  
Fast delivery  
100% quality control  
Timely premium after-sales service

### FAQ

Q:What is the difference between semi-automatic production line and full-automatic production line?

A:In short, fully automatic production lines are expensive, but require less labor. Semi-automatic production line is more affordable, but the labor will be more than the automatic line

Q: About technical offer

A: As for machine operation, we will arrange engineers to go to your factory for installation and teaching after you buy our machines.  
If you have engineers who have been involved in the installation of SMT equipment, we can teach you how to install it online.

Q: This is the first time I use this kind of machine, is it easy to operate?

A: There is English manual or guide video that show you how to use machine. If you still have any question, please contact us by e-mail/ Skype/ phone/ wechat/ online service.

Q:How can we guarantee quality?

A: we have our own industrial park, a dedicated R&D and production department and we have more than ten years of experience in this field.

Q:Do you have offices and local engineers in overseas?

Yes, we have established offices and local engineers in Egypt, Turkey and India,etc
