

64 pcs feeders multifunctional automation 20 heads LED smt pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: RT-2
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum package, wooden case
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets/month

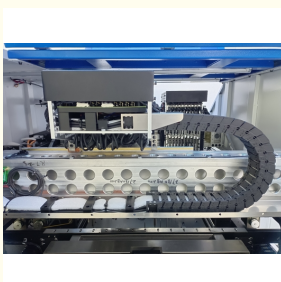

Product Specification

- Dimension: 1200*1930*1500mm
- Total Weight: 2000kg
- PCB Length Width: Max 450*300mm/450*540mm
- PCB Thickness: 0.1-6mm
- Camera: 4
- Components Space: 0.2mm
- Feeder: 64
- Head: 20

Product Description

64 pcs feeders multifunctional automation 20 heads LED smt pick and place machine

Product Description Specification

Number of feeders	64
Number of cameras	20
Power supply	380AC
Mounting precision	0.02mm
Component space	0.2mm
Drive motor	High-end magnetic linear motor+servo motor
PCB thickness	0.1-6mm
Mounting speed	80000CPH

Feature

1. High-end magnetic linear motor+servo motor
2. 4 sets of camera, High-precision recognition
3. Feeding way: Electric feeder with double motor
4. 20 heads can pick up group or separately

SMT production line

We can provide full-automatic production line and semi-automatic production line solutions and complete equipment.

Company profile

Shenzhen ETON Automation Equipment Co.,Ltd. Was founded in 2011.

It is a manufacturer and process solution provider of SMT high-speed pick and place machine and SMT peripheral automation equipment.

The factory covers area of 52000 square meter and have strong manufacturing capacity.

Exhibition show

Before the outbreak, we participated in various exhibitions at home and abroad every year, and won the love and attention of many customers during the exhibition. However, due to the epidemic situation in recent years, few exhibitors have participated in the exhibition.

Package

Our packaging is generally packed in vacuum wooden cases, and the packaging truck is driven by special personnel.

1. Our machine are packed in vacuum wooden cases, in order to prevent chemical reaction with some components during transportation, so as to better protect the machine itself.
2. The salesman tracks the delivery process and records the whole loading process to ensure no error in loading.
3. After loading, when the goods arrive at the port, we will cooperate with the forwarder to do customs clearance procedures.

Service

Top R&D team
Fast delivery
100% quality control
Timely premium after-sales service

FAQ

Q:What is the difference between semi-automatic production line and full-automatic production line?

A:In short, fully automatic production lines are expensive, but require less labor. Semi-automatic production line is more affordable, but the labor will be more than the automatic line

Q: Is the software for these machine in English?

A: Yes. Our software is independently developed, there are two version in English and Chinese.

Q: if there is a problem with the machine,can it be repaired?

Of course, the machine failure rate is 0.001 , and in addition to the warranty period, we also provide you with free maintenance 1-2 times a year.

Q: Why do you choose our product?

our product quality is guaranteed, and we have overseas local engineers, can arrange door to door installation.

Software lifetime free upgrade

Free installation and training

Provide 1-2 times a year free for machine repair, after the warranty period.

Q: Is the machine free of charge?

A: Yes. Our warranty for the whole machine is one year, but in addition, we provide customers with free maintenance once or twice a year.
