

## RT-1 LED bulb printer manufacturers pick and place Machine SMT Automatic HIGH SPEED printing machine

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: RT-1
- Minimum Order Quantity: 1 Set
- Packaging Details: wooden box with vacuum package
- Payment Terms: T/T
- Supply Ability: 50 sets per month

#### Product Specification

- Mounting Speed: 40000CPH
- Name: SMT Pick And Place Machine
- Warranty: 1 Year, 12 Months
- Applicable Components: Min Size: 0402
- Application: LED Bulb, down Light, street Light, driver, circuit Board
- Dimension: 1200\*1930\*1500
- Weight: 2000KG
- Feeders: 32pcs
- Pcb Thickness: 0.1-6MM (If < 0.6mm Need Jig)
- Nozzle Type: 3014, 3528, 5050, customized Nozzles

## Product Description

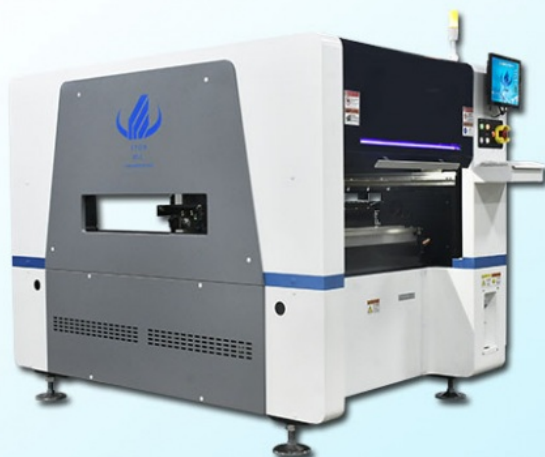

This is an updated RT-1

As a classic model, what functions will the second generation RT-1 bring us?

Max mounting size is 17mm,min component is 0402

Feeder stations are used to fix intelligent feeders. The number and installation mode of feeders can be combined arbitrarily.

This is a classic model with a wide range of users. The operation is also very simple. Employees can quickly learn and put the machine into production as soon as possible

Length	1200mm
Width	1930mm
Height	1500mm
Total weight	2000KG

**Optimum speed  
40000 CPH**

***Flight recognition camera***

The high-speed flight recognition camera collects multiple head images at one time for component alignment correction

***MARK camera***

Mark identification system, scan PCB board for mounting program

***Mounting head***

The mechanical arm supports the movement of the mounting head to mount components. The linear motor is used

***linear guide rail***

Support and guide the moving part to make high-precision reciprocating motion in the specified direction

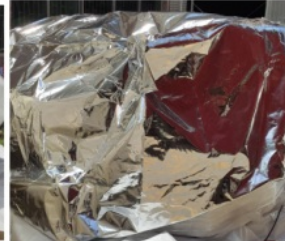

#### First step

All machines delivery to abroad will use Foam wrap, to Protect the machine from collision

#### Second step

The second layer will be wrapped with stretch film to prevent the equipment from getting wet

#### Third step

Vacuum paper packaging and moisture-proof bag, so that the machine can be kept dry during transportation to prevent moisture

#### Forth step

Use straps and triangular wood to fix the machine to prevent damage to the machine during transportation

#### Fifth step

Each exported machine will be equipped with sturdy export-free wooden boxes

#### Sixth step

Carefully cabinet, to ensure a good delivery all the time.

Please feel free to contract us  
if you have any question

**Q** Do you have oversea after sale service?

We can provide technical support  
abroad.

**A**

**Q** Is it hard to use these machines?

Machine is very intelligent and easy to  
operate.

**A**

**Q** How about the warranty of the machine?

One year warranty factory service for  
free.

**A**
