## Product Description

This new rt-2 is equipped with dual-mode group, and the mounting speed reaches 80000cph. Compared with other series of products, it is more suitable for products with smaller PCB and high-element devices. Maybe you are worried about the poor mounting accuracy of the machine now, you can consider this model. If you choose this machine, the speed can be improved, and the placement accuracy of high-element devices and the accuracy of small PC board products can be well guaranteed.
