ETON high precision multifunctional SMT machine with 45000CPH

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum packaging and wooden cases
- Delivery Time: 5~8 work days
- Payment Terms: L/C, T/T

Product Specification

- Warranty: 1 Year
- Name: SMT Pick And Place Machine
- Application: SMT Production Line
- Power Supply: 380AV 50HZ
- Weight: 1700kg
- Mounting Speed: 45000CPH
- Usage: SMT Mounting Machine
- Dimension: 2550*1650*1550mm
- Feeders: 28PCS
- Pcb Thickness: 0.5-5 Mm

Product Description

ETON high precision multifunctional SMT machine with 45000CPH

Product description

E8S-1200 is single module magnetic linear motor multifunctional pick and place machine. The placement machine is a device used to achieve high-speed and high-precision placement of components. It can produce flexible light, lens, drive, LED tube, streetlight, circuit board.

Dimension	2550*1650*1550mm
Weight	1700kg
PCB length width	1200*500mm 100*100mm
PCB thickness	0.5~5mm
PCB clamping	pneumatic
Mounting mode	group picking and separately placing, separately picking and separately placing
NO. of camera	2 PCS
Mounting precision	±0.04mm
Mounting speed	CPH
NO. of feeders station	64PCS

Main features

Mounted components

With lamp beads, lenses, capacitors, resistors, ICs, terminals, inductors, coils, diodes, triodes, rectifiers, transformers (Minimum placement of 0402 components, maximum placement range: 15mm). Meet the needs of most clients for mounting components.

speed can reach 45000PCH with 12 heads.

X, Y, Z axis drive mode is high-end magnetic levitation motor and servo motor.

Automatic optimization coordinates generated.

Product line

You can ask us what kind of production line is the most suitable for you, we will try our best to make a production line that suits you, and help you save cost and land area as much as possible.

ETON - HT-E8S-1200 Semi-automatic Production Line

Shenzhen ETON Automation Equipment Co., Ltd. It has a 14-year history of researching the pick and place machine industry. It plays a pivotal role in leading the development of placement machines in China.

Quality principle:
Quality First
Client-oriented
Continuous Improvement

FAQ

1. What kind of nozzle is the machine?

A: Multi function machines are generally made of alloy and ceramics, and special machines are generally made of steel and copper

2: Can we visit your workshop?

A: If you want to visit the workshop and it's inconvenient for you to come, we can let you visit through video.

3. The mounter is hard to operation?

A: NO, most customers just by 5 days
