

20Pcs Head Pick And Place Machine 90000 CPH For LED Chips Components

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: YT202
- Minimum Order Quantity: 1 Set
- Packaging Details: wooden box with vacuum package
- Payment Terms: T/T
- Supply Ability: 50 sets per month

YT202 Pick and place machine

Product Specification

- Dimention: 2317*1376*1700
- Total Weight: 1700kg
- PCB Length Width: Max : 500*450mm Min : 50*50mm
- PCB Thickness: 0.5-4.5mm
- System: Windows 7
- Software: R&D Independently
- No.of Camera: 4pcs
- Mounting Speed: 90000CPH
- Components: 0201-10MM Packages And IC Etc.
- Electrical Control: Independent Research And Development By Eton.
- Highlight: 20Pcs Head pick and place machine,
LED Chips pick and place machine,
90000CPH pick place machine

Product Description

Small chip 0201 components 90000 CPH 20 pcs head pick and place machine

High precision! Wider components! Can mount small chip **0201 to 10mm** larger chip.---ETON Newest **High speed** Multi-Functional Pick&Place machine **YT202**.

Production Introduction

ETON is China **High-end intelligent** manufacturing pioneer. The **Newest** Multi-Functional Pick&Place machine **YT202**, The key point as below:

1. To ensure **high precision, high speed**, show below details to you.

1) Adopt **High-speed** Multi modular head, apply to ultra small chip **0201-10mm** larger chip, Wider components.

2) Camera: Head flight **vision recognition** camera, Brand new flight vision camera, improve recognition performance, size up to **10mm*10mm**.

3) **Feeding way: Intelligent electric feeder**, double head intelligent electric tape reel feeder, by optically correcting the feeding position of the components, it can achieve **stable, accurate** and high-speed feeding.

4) **High-end magnetic linear motor**, servo motor and multi function modular head. Optimum placement speed reach **90000 CPH**. The capacity increased by **25%** compared with traditional machine.

Our Product Introduction

High speed Mounter YT202

-Max size: 500*450mm
-Components range:
0201-10mm
-Placement head: 32
PCS

90000CPH

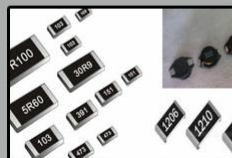

2. Suitable for mounting many kinds of **led lighting**, such as led bulb, panel, DOB, strip light, tube, down-light, street light, etc. Also can mount led display, **electric board**, **power driver**, household appliance and so on. **One module meet all you need.**

Mounting components

LED chip

capacitors

resistors

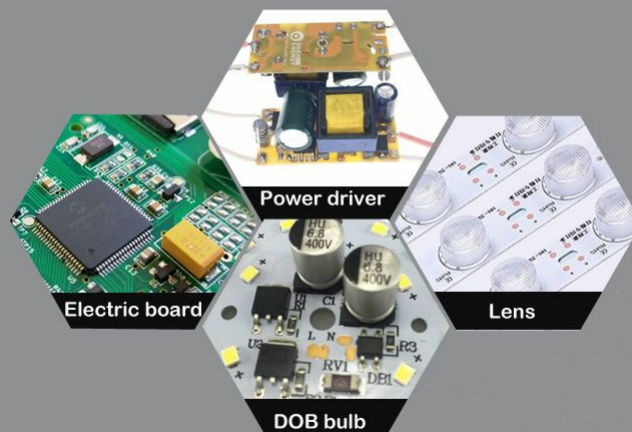

inductance

Lens

Mounting kinds of product

Pick and Place machine	YT202
pcb size(l*w)	Max size: 500*450mm
pcb thickness	0.5-4.5mm
Camera	4 sets
Mouting speed	90000 CPH
components range	0201-10mm packages and IC, etc.

Our Company

Plus Our company is **ETON**, **TOP brand** of SMT machine in China! Shenzhen **ETON** Automatic Equipment Co., Ltd. was founded in **2011**.

- 1) Over **10** years experience in SMT machine. ensure to solution the customer's questions. Always provide best support to you!
- 2) Own Industry Park over **50000** square meters. Support **customization**: OEM/ODM. Sometimes the machine is **in stock**. if you pay and

we get the payment, we can arrange delivery immediately.

3) **Quality is guaranteed:** We got **9** invention Patents, **112** practical patents, **12** software copyrights.

4) Provide **SMT whole line solution**, based on customer's factory layout, requirement, product, etc.

5) Best service: **Free** technical training, **free** installation, **free** technical support, **free** upgrade whole lifetime. **One** year for warranty, **Two** regular visits customer one year.

6) Local engineer in **India(Delhi, Mumbai and Daman),Egypt and Turkey**, which can provide you with the greatest convenience.

ETON is China's largest manufacturer of SMT machine, industrial park more than 50000 square meters.

-ETON got more than 14 years R&D experience in SMT industry equipped with core technology

-ETON Got large more than 80% big led lighting industry market, machine hot sell to more than 20 countries.

-ETON R&D Global first automatic stencil printer machine for roll to roll 100 m led strip light

-ETON R&D super high speed pick and place machine, 250000 CPH, fastest in all over the world

Patents and Honor

Professional Efficient Technology Development Innovation, We got 9 invention Patents, 112 practical patents, 12 software copyrights. Moreover, ETON has invented the CPH.

ETON is leading position in the filed of SMT pick and place machine, aim to "Create a well-known national brand and build a word-class enterprise".

Five Star service

Pre-sale, on-sale and after sale, Technical support; We have professional service team, Rich experience, ensure to solution the customer's questions. Always provide best support to you!

FAQ

1. Can I visit the production site of your machines in India?

- 1) We can't make decisions for my clients. I have to ask my clients. After all, this is our customer's factory.
- 2) I think that You wouldn't want your competitors to visit your manufacturing site, please understand.

2. Can I use CIF price? Can I pay by L/C?

- **CIF price:** actually to do EXW will more simple and save cost for you. the india delivery forwarder will charge ours more than yours. CIF price need add the freight, insurance fee on the basis of EXW price.

- **L/C payment:**

- 1) you need to wait longer to get the machine, which will delay your production plan and delay the opportunity.
- 2) When there is an error in the letter of credit, you will have to pay a fee to correct the error, which will increase your cost.
- 3) The procedure of L/C payment is complicated, which will waste a lot of time on payment.

3. What is your machine actual speed ?

- 1) We can't give you the accurate actual production capacity. The actual speed is influenced by many factors, such as the number of the components, the kind of products, the time of send board, etc.
- 2) Such as for RT-1, the speed of led chip mainly around 23000-25000 CPH. But for driver will be different .

4. How many hours does the machine can operate per day?

Machine can work whole day. But for longer using life, we suggest you to have **1 hour or 2 hours** off per day.

5. I want to discuss with you about the assembly machines?

I would advise you not to buy assembly lines yet because assembly lines are very expensive, it can be assembled manually first.

Find me on Whatsapp: **+86 19880662073** and let's discuss more.
