

220VAC 50HZ Glue Dispenser Machine 90000 CPH LED Light SMT Glue Dispenser

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE
- Model Number: HT-D12-1200
- Minimum Order Quantity: 1 sets
- Price: USD 20000-27500 per set
- Packaging Details: Vacuum wooden box packaging
- Delivery Time: 5-8 work days
- Payment Terms: L/C, T/T
- Supply Ability: 50 sets per month

Product Specification

- Brand: ETON
- Name: Glue Dispenser Machine
- Dimension: 1800*1050*1550mm
- Weight: 800kg
- MAX PCB Size: 1200*500mm
- PCB Clamping: Adjustable Pressure Pneumatic
- System: Windows 7
- Software: R&D By ETON
- No. Of Camera: 1 Set Industrial Camera
- Dispensing Accuracy: 0.1mm
- Highlight: 220VAC glue dispenser machine,
glue dispenser machine 90000 CPH,
LED Light SMT Glue Dispenser

Product Description

SMT Machine 90000 CPH 220AC 50HZ Glue Dispenser Machine

Technical parameter

Model	HT-D12-1200
Dimension	
Length	1800mm
Width	1050mm
Height	1550mm
Total weight	800Kg
PCB	
Max PCB size	1200*500mm
PCB Clamping	Adjustable pressure pneumatic
Dispensing mode	Pneumatic injection valve
Vision system	
No.of camera	1 set industrial camera
Dispensing accuracy	0.1mm
Heating temperature	200°C
Dispensing height	< 15mm
Dispensing speed	90000 CPH
Power	220AC 50Hz
Power consumption	1.5KW
Operating environment	23°C±2°C
Drive way	magnetic linear motor drive
Max running speed	1200mm/sec
Transmission direction	Single(left right or right-left)
Transmission way	Online drive
Gas consumption	0.4-0.6mpa (4-6 kgf / cm ²) 150N/min
Electrical control	Independent research and development by ETON
1 Set motion control card	

The features

Control the dispensing value in milliseconds, ensure the conformity of glue volume
 Online visual programming, more convenient
 Automatic program standby, start up production rapidly, intelligent manufacturing
 Apply to various kinds (round, linear, lattice etc.) of products
 High performance linear motor drive for X,Y Axis, ensure high accuracy in high speed
 Universal signal connecting, connect equipment online easily
 Large capacity SSD Industrial control system, high speed access ensures system response speed

SMT pick and place machine and other peripheral equipment

A complete SMT production line include PCB loader, pick and place machine, conveyor, reflow oven and other peripheral equipment. We not only provide multifunctional and professional pick and place machine, but also provide SMT peripheral equipment, in other words, we provide the complete semi automatic and full automatic SMT production line.

The service and transport

1. The Service

Before sales

Our sales specialist will analyze and recommend the equipment and production line best for you and Provide exclusive and customized services

Under sales

Specialist sale tracks the equipment production and transport situation in time, ensure that the equipment arrives at customers in good condition, and provide professional technical guidance for equipment assembly, and part of areas provide door-to-door service for overseas engineers

After sales

One-year warranty period, sales specialist to answer questions online 24 hours; regularly visit customers to understand the working status of equipment.

ETON

Before sales

Our sales specialist will analyze and recommend the equipment and production line best for you and Provide exclusive and customized services

Under sales

Specialist sale tracks equipment production and transport situation in time, ensure the equipment arrives at customers in good condition, and provide professional technical guidance for equipment assembly, part of areas provide door-to-door service for overseas engineers

After sales

One-year warranty period, sales specialist to answer questions online 24 hours; regularly visit customers to understand the working status of equipment.

Service-----

Maintenance period: 1 year
Visit customers regularly and gather information
Provide latest information about technology and equipment

-----Quality principle

Quality First, Client-Oriented, Continuous Improvement!

2. The package and transport

In order to ensuring the machine in good condition when arrive the equipment reaches the customer factory, we use the vacuum packaging and wooden box packaging.

Step 1: pack the machine with foam cotton and stretch film to protect the outside of the machine

Step 2: Vacuum packing. Put the desiccant in a vacuum bag to prevent moisture; use straps to secure the machine;

Step 3: professional wooden box packaging.
