

## Ultra Speed 500000CPH Pick And Place Machine For No Wire Flexible Strip Light

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: T9-2S
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum wooden package
- Delivery Time: 5-8 work days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

#### Product Specification

- No. Of Heads: 136pcs
- PCB Size: 250( $\pm$ 10)mm\*any Length
- PCB Clamping: Vacuum Adsorption, Cylinder Clamping, Track Width Adjustable
- No. Of Camera: 10 Pcs
- Mounting Speed: 500000CPH
- Pcb Thickness: 0.1-0.5mm
- Highlight: **Flex Strip pick and place machine ,  
Strip Lights pick and place machine ,  
Ultra Speed SMT Mounting Machine**

## Product Description

### Ultra-speed 500000CPH pick and place machine for no-wire flexible strip light

#### How much do you know about SMT placement machines?

Its function is the process of placing surface mount components (such as led chips, capacitors, resistors, ICs, bridge stacks, etc.) on the printed circuit board, which is the front-end process of producing LED lights.

#### Do you know what the speed of the fastest placement machine in the world is?

At present, our company -ETON has launched a new product value series placement machine ~T9-2S, with a production capacity of 500000CPH, once again updated the world record of SMT placement machine speed

#### Description:

Mainly for making any length flexible strip, such as 10m, 25m, 50m, 100m, 200m, etc

Apply to 3014/3020/2835/5050 or resistors, bridge rectifier, etc

With unique design component leaking detection

136PCS heads, optimal speed can reach 500000CPH

#### Parameter

PCB Size	250(±10)mm*any length
PCB thickness	0.1-0.5mm
PCB clamping	vacuum adsorption, cylinder clamping, track width adjustable
Mounting mode	Double rails+four groups of placement heads
The features of camera	vision alignment+mark correction
Mounting speed	500000CPH
No. of heads	136pcs
Power	380ac 50hz
Position mode	Optimal

#### What are the advantages of the T9-2S?

High productivity

Placement head can adjust

With unique design component leaking detection and individual component refill function

Ultra-high-speed capacity~500000CPH

Flexible production

The conveying platform can adjust

The distance of feeder station can be flexibly adjust

Can produce four kinds of materials at the same times

High performance

Flight recognition camera, no pause to detect the presence of absence of components

Automatic production with identification data

Compliant with CE standards

#### After-services

##### Maintenance period 1year

One year warranty, during warranty, any parts need to be repaired and replaced will be free.

Software and hardware lifetime maintenance

Free upgrade software, software is Reach and develop by ETON, so we support whole lifetime free upgrade updates.

##### Visit customers regularly and gather information

Visit clients regularly. We attend different exhibition in different cities every year, at the same time, we will visit local clients and support our service and collect and feedback customer suggestions in time.

Provide latest information about technology and equipment  
We give professional technology suggestion with our clients. And share the updates news to our clients

## Why choose us?

**Strong reach and develop technology team**, support machine upgrade continuously, support client strong technical support

**Rich experience in SMT Industry Line**. ETON set up more than 10 years, we are leading manufacturer of SMT machine in China

**Strong production capacity**, ETON have more than 50000 square meter Industrial park in Jiangxi Province, machine capacity more than 50 units/month

**Good and professional service**. Provide engineer Door-to-door service, support video online training, video training share, free replaced machine core part during warranty. And also we could provide professional SMT line solution.

**Can provide you a whole line equipment and solution**

## FAQ

### 1) Do you have oversea after sale service?

We can provide technical support abroad. If you have any technical problems, our engineers will provide you with timely support. Abroad, we have India office, Indian engineer, Jerusalem office, engineer, Egyptian engineer, etc.

### 2) How is the training?

After purchasing our machines, you can send your engineers to our factory, or we send our engineers to your factory, and then we will train your personnel to operate these machines. Online training and video tutorials. During the epidemic, if our engineers can't make it through, we also have special one-on-one online training and video tutorials..

### 3) It's hard to use the machine?

Machine is very intelligent and easy to operate, like the intelligent phone, also the software is made by our company, so we know how to make it more intelligent and operate friendly.

### 4) Does your machines have quality certificates?

We are high-tech enterprise with CE, SIRA, CCC, ISO awarded as "Well-know brand" and many technology patents, and have rich experience (more than 10 years) in LED light production line program.

### 5) why should you buy from us not from other suppliers?

We are high-tech professional manufacturer of SMT machine with more than 10 years with good quality and reputation. We have rich experience in helping client to start new factory and new line. "Professional, high-effective, cost-saving" are our advantages.
