

Automatic SMT Mounting Machine 250000 CPH High Speed For LED Flexible Strip

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE , ISO , CCC
- Model Number: HT-T9
- Minimum Order Quantity: 1 unit
- Price: USD 51000-76500 per set
- Packaging Details: vacuum wooden packing
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T
- Supply Ability: 50 Unit per month

Product Specification

- PCB Length Width: 250 Mm*Any Length
- PCB Clamping: Vacuum Adsorption, Cylinder Splint, Adjustable Track Width
- Transmission Speed: >500 Mm/sec
- Component Height: ≤5 Mm
- No. Of Feeders Station: 68 PCS
- No. Of Heads: 68 PCS
- Power Consumption: 6 KW
- Feeding Way: Electric Feeder With Double Motor
- PCB Thickness: 0.5-1.5 Mm
- Highlight: **SMT mounting machine 250000 CPH , LED Strip SMT mounter machine, Automatic Strip SMT Mounting Machine**

Product Description

high-speed led flexible strip mounting 250000 CPH SMT pick and place machine

HT-T9 is the fastest professional pick and place machine which can produce any length of flexible strip and produce 4 different types of materials at the same time.

Four modules and two arms can mount separately and synchronously with the mounting mode of group to pick and group to place.

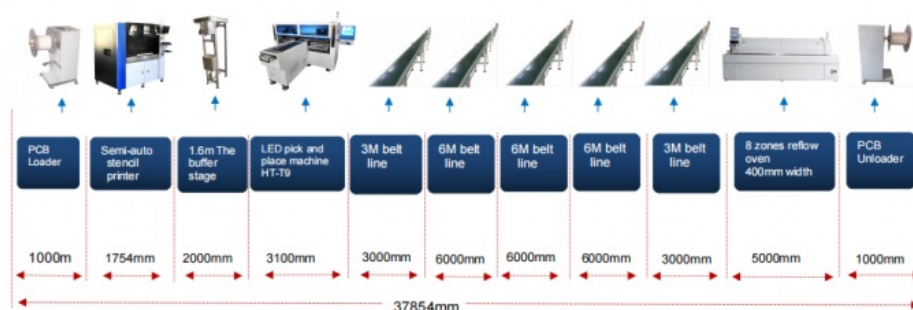

Machine main parameter

Length	3100mm
Width	2300mm
Height	1550mm
Total weight	1700kg
PCB Length width	250mm*Any length
PCB Thickness	0.5-1.5mm
PCB clamping	Vacuum adsorption, cylinder splint, adjustable track width
Transmission speed	>500mm/sec
Repeating Mounting precision	±0.02mm
Component height	≤5mm
No. Of feeders station	68PCS
No. Of head	68PCS
Power consumption	6KW
Positioning way	Optical
Feeding way	Electric feeder with double motor

SMT Line solution

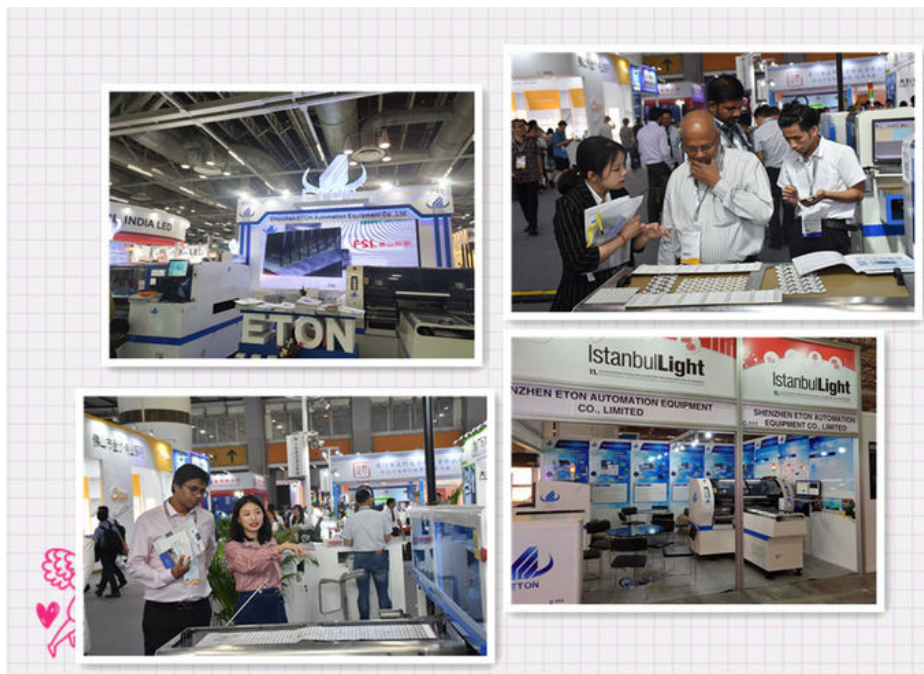

We have the professional sales personnel and excellent technology and strength to provide professional and suitable SMT production line solution for every client. such as HT-T9 100 M full automatic no wire flexible strip production line includes PCB loader, automatic stencil printer, the buffer stage, pick and place machine HT-T9, 24M belt line, reflow oven and PCB unloader.

ETON - HT-T9 100m full-automatic No-wire flexible strip Production Line

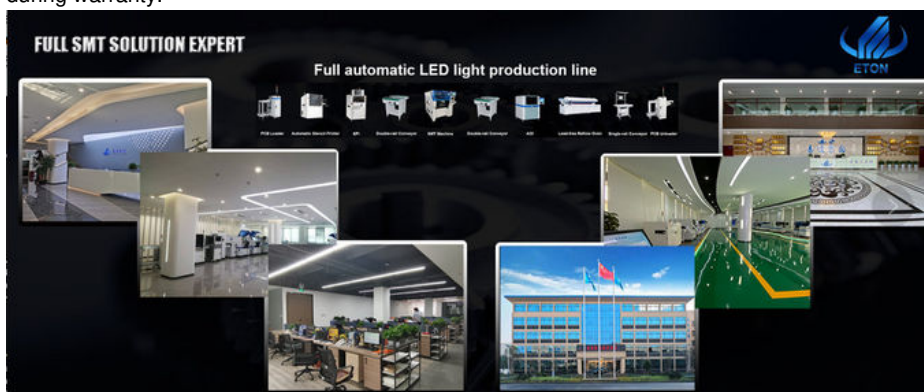

Exhibitions

ETON every year will actively participates in various domestic and foreign exhibitions. The purpose is to let our products show up in front of the customers who are from all around world. the domestic exhibitions include Guangzhou Light Asia Exhibition, Shanghai Munich Exhibition, Chongqing LED exhibition; the international exhibitions include India Mumbai exhibition, Pakistan exhibition, Egypt exhibition, Turkey exhibition and so on. Our production have exported to more than 20 countries and regions, including South Korea, India, Egypt, Turkey, Russia etc.

Company profile

1. We have Strong reach and develop technology team and support client strong technical support.
2. We have rich experience in SMT Industry Line. ETON set up more than 10 years, we are leading manufacturer of SMT machine in China.
3. We have Strong production capacity, ETON have more than 50000 square meter Industrial park in Jiangxi Province.
4. Provide engineer Door-to-door service, support video online training, video training share, free replaced machine core part during warranty.

Company

- 1: 50000 square meters industrial park ensure the brand effect and present company strength.
- 2: Own manufacturing center, equipped with an advanced processing and manufacturing center, strict quality control, and standardize production, streamline production processes make our machines has high quality standard and strong supply capacity.
- 3: More than 10 years LED lighting field experiences sharing, provide the most suitable SMT program to every client

Production

Own manufacturing center, equipped with an advanced processing and manufacturing center, strict quality control, and standardize production, streamline production processes make our machines has high quality standard and strong supply capacity.

Research

Independent research and development, make the software and machines has best program. And can provide the whole life free update on software.
Own design and produce feeders make the machines' stability and long-life feeding and good performance.

Services

We have 1 YEAR Maintenance period.
We will visit customers regularly and gather information
We will provide latest information about technology and equipment
We have overseas engineers teach equipment operation
We have quality principle: quality first, client-oriented, continuous improvement.

RFQ

1. What components can be mounted?

LED chip, resistors, capacitors, IC, crystal, shaped component etc.

2. How about the operating software ?

Our software is R&D independently by ourselves.

3. Do you have oversea engineer to help to install the machine and teach how to operate the software?

Yes, of course. We have oversea engineer in India, Egypt, Turkey. If you need, the engineers will come to customer's factory.

4. Do you provide personal customization?

Yes, of course. contact the sales specialist to customize the equipment for you.
