

YT202S Multifunctional 0201 SMT Mounter Machine 80000CPH Pick And Place Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: YT202S
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden package
- Delivery Time: 30 work days
- Payment Terms: T/T
- Supply Ability: 50 sets/month

Product Specification

- Dimension: 1788*1686*1375mm
- Weight: 1700kg
- PCB Size: Max 500*450mm
- PCB Thickness: 0.5-4.5mm
- Repeat Precision: 0.02mm
- Mounting Speed: 80000CPH
- Applicable Components: 0201
- Warranty: 12 Months
- Highlight: Multifunctional 0201 SMT Mounter Machine, multi modular head SMT Mounter Machine, 80000CPH 0201 pick and place machine

Product Description

Multifunctional YT202S mount for 0201 the optimal capacity can reach 80000CPH pick and place machine

Machine description--YT202S

1. Length*width*Height: 2788*1686*1375mm Total weight:1700kg
2. The PCB size: max size: 500*450mm(single PCB) 500mm*300mm (double PCB) min:50*50 mm
3. PCB Clamping: Cylinder clamping, track width adjustable
4. No.of camera: 4 sets (Bottom vision camera recognition); feature:Mark correction+vision alignment
5. Apply to 0201~40*40mm tape reel package and IC tray feeder etc
6. High-speed multi modular head,Non replace modular head
7. The optimal can reach 80000CPH

Feature--YT202S

Adopt high-speed multi modular head, apply to ultra small chip 0201~40*40mm large chip, wider component range.

Each module 10 spindles, both high-speed and intelligent with light compact design.

Improve recognition performance, size up to 40*40mm, apply to BGA or CSP etc

Each placement head with independent detection function, which improves the stability of the equipment and the reliability of the product.

Adopt high-end magnetic linear motor, servo system and multi function modular head, the capacity increased by 25% compared with traditional machine, optimum placement speed reach 80000CPH

Application

YT202S, apply to 0201mm~40*40 mm tape reel package and IC tray feeder.

Suitable for LED bulb, street light, panel light, down light, DOB, electric board, etc

Package

Package way: Vacuum adsorption, wooden package.

Professional personnel are responsible for the packaging process to ensure that the goods are not damaged during transportation and can reach our customers completely.

Package

1. Our machine are packed in vacuum wooden cases, in order to prevent chemical reaction with some components during transportation, so as to better protect the machine itself.
2. The salesman tracks the delivery process and records the whole loading process to ensure no error in loading.
3. After loading, when the goods arrive at the port, we will cooperate with the forwarder to do customs clearance procedures.

SMT layout

This is our pick and place machine YT202S Semi-auto production line.

The mainly include: Semi-auto printer machine, conveyor, pick and place machine YT202S, reflow oven.

Application: can produce LED bulb, down light, panel light, street light, DOB, electric board, etc. Wider component range.

Our customer

As soon as our customers get the machine, our company will immediately arrange engineers to come to the site for free installation and training, and will not leave until the customers learn how to operate the machine. At the same time, we have engineers not only in China, but also in India and Egypt. Customers don't have to worry about installation and after-sales problems.

ETON Customers Factory Pictures

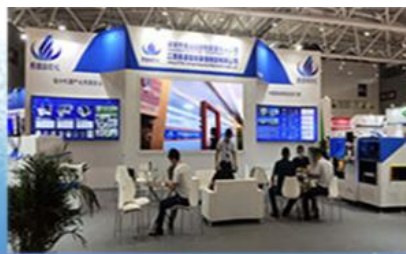

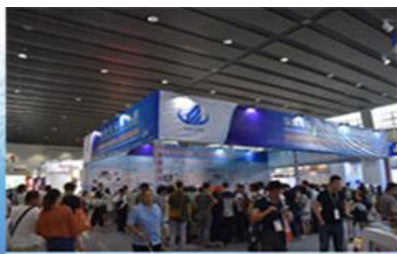

Our products are exported to more than 20 countries & regions

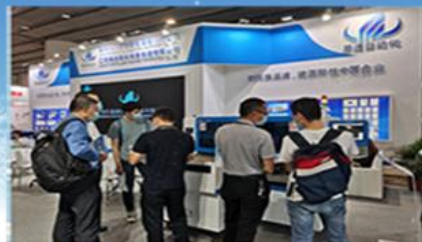

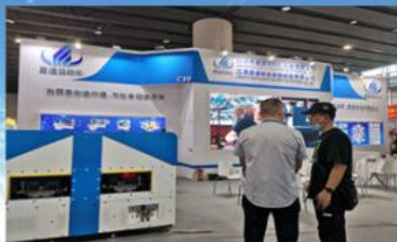

Such as South Korea, Turkey, Egypt, India, Russia, America, Brazil, Tunisia, Poland, Lithuania, South Africa, Iran, Vietnam, Pakistan, Saudi Arabia, Uzbekistan, Nigeria, Germany, etc.

Exhibition

We often participate in the exhibition in Delhi, Mumbai, Turkey, Thailand, Pakistan and so on, but in recent years, due to the epidemic, we seldom go aboard to participate in the exhibition.

Exhibition

FAQ

Q: What is the difference between semi-automatic production line and full-automatic production line?

A: In short, fully automatic production lines are expensive, but require less labor. Semi-automatic production line is more affordable, but the labor will be more than the automatic line

Q: Why do you choose our product?

our product quality is guaranteed, and we have overseas local engineers, can arrange door to door installation.

Software lifetime free upgrade

Free installation and training

Provide 1-2 times a year free for machine repair, after the warranty period.

Q: This is the first time I use this kind of machine, is it easy to operate?

A: There is English manual or guide video that show you how to use machine. If you still have any question, please contact us by e-mail/ Skype/ phone/ wechat/ online service.

Q: About technical offer

A: As for machine operation, we will arrange engineers to go to your factory for installation and teaching after you buy our machines.

If you have engineers who have been involved in the installation of SMT equipment, we can teach you how to install it online.
