

## ETON 500,000CPH SMT production line placement machine for flexible light

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC CE SIRA
- Model Number: T9-2S
- Minimum Order Quantity: 1 set
- Packaging Details: wooden cased, vacuum packaged
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

#### Product Specification

- PCB Size: 250\*any Length
- PCB Thickness: 0.1-0.5mm
- PCB Clamping: Vacuum Adsorption, Cylinder Clamping, Track Width Adjustable
- Mounting Way: Group Picking And Group Placing
- Mounting Mode: Double Rail+four Groups Of Placement Heads
- No.of Camera: 10 Sets
- Mounting Speed: 500000CPH
- Feeding Way: Intelligent Electric Feeder With Double Motor

## Product Description

ETON 500,000CPH SMT production line placement machine for flexible light

### Machine feature

High productivity: ETON tech adjustable placement head; unique design component leaking detection and individual component refill function; ultra-high-speed capacity

Flexible production: adjustable the conveying platform according to various roll to roll strip, range  $250\pm 10\text{mm}$ , the max length range is 1M per cycle.

The distance of feeder station can be flexibly adjusted to achieve group picking and group placing, so as to realize the function of two time picking and once placing.

The range of feeding station is double o placement head, can produce four kinds of materials at the same time.

Intelligent electric feeder, supporting high-speed machine series.

High performance: flight recognition camera, no pause to detect the presence or absence of components, component adsorption state, prevent placement errors.

Automatic production with identification data, correction and fill missing component automatically.

The clamping rod is driven by the air cylinder to correct the materials taken by mounting head.

With the function of filling missing component automatically, realize industry 4.0 unmanned workshop.

Compliant with CF standards.

### Machine parameter

Model	T9-2S
PCB size	$250\pm 10\text{mm}$ *any length
PCB thickness	0.1-0.5mm
PCB clamping	Vacuum adsorption, cylinder clamping, track width adjustable
Mounting way	Group picking and group placing
Mounting mode	Double rail + four groups of placement heads
Mounting speed	Double size:500000CPH Single size:250000CPH
Components range	LED 3014/3020/2835/5050 and resistor, capacitors, bridge rectifier etc.
No.of feeder station	Double side: 136PCS(single side: 68PCS)
No.of head	Double side: 136PCS(single side: 68PCS)
Feeding way	Intelligent electric feeder with double motor

### Company introduction

Shenzhen Eton Automation Equipment Co., Limited is a professional manufacturer focusing on pick and place machine and peripheral equipment.

We have 10-year experience in SMT machine, with unique understanding of SMT technology, we provide long-term professional services to domestic and foreign electronic company, leading SMT equipment technologies.

With good quality, competitive price, easy operation. Our products are very popular in SMT.

Up to now, our products are already sold in many countries such as South Korea, India, Vietnam, Tunisia, Egypt, Turkey, Russia, Brazil. We will continue to make great efforts to satisfy the customers' requirement.

## Our Company

## Industrial Park

## About Exhibition

## Service

7\*24 technical online support

Professional training of operating and maintenance

Provide free installation machine to ensure smooth production

Quality First, Client-oriented, Continuous Improvement

We promise to allow customers to clearly know the completion of the product

In strict accordance with the relevant provisions of the contract terms of production, delivery, to ensure product intact and in place within the stipulated time to customer requirements

Visit customers regularly and gather information

Company five level management policy: sincere business, focus on R&D, manufacturing intentions, considerate service, customer trust

## FAQ

Q: If machine have any problem after I receive it , how can I do?

A: During the warranty period, we will replace it for you free, or we can arrange a process engineer to repair it for free

Q:What are your advantages?

A: Our company stick to five level management policy: sincere business, focus on R&D, manufacturing intentions, considerate service, customer trust.

What's the terms of payment? What about the trade term?

T/T, L/C are OK. 30% pay in advance, the balance before shipment. You can choose EXW Shenzhen.

what's the minimum quantity of an order for your company?

1 set machine are welcomed to order, mixed orders are also welcomed.
