

SMT production line glue dispenser machine led lens

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: HT-D12
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum packaging and wooden cases
- Delivery Time: 5~8 work days
- Payment Terms: L/C, T/T

Product Specification

- Warranty: 1 Year
- Application: SMD Production Line
- Power Supply: 220AV 50HZ
- Weight: 800kg
- Dimension: 1800*1050*1550mm
- Dispensing Speed: 90000CPH
- Drive Way: Magnetic Linear Motor Drive
- Software: R&D Independently
- Dispensing Accuracy: 0.1mm
- Heating Temperature: 200

Product Description

SMT production line glue dispenser machine led lens

Production Introduction

Name:dispenser

Use:Glue control

Alias:Glue coating machine, glue dispensing machine, glue filling machine, etc.

Application industry:Electronics, Lighting, Automotive, etc.

-1

Dimension	1800*1050*1550mm
Total weight	800kg
Max PCB size	1200*500mm
PCB claming	Adjustable pressure pneumatic
Dispensing mode	Pneumatic injection value
No.of camera	1 set industrial camera
Dispensing accuracy	0.1mm
Heating temperature	200
Dispensing height	<15mm
Dispensing speed	90000CPH
Drive way	magnetic linear motor drive

Application products

Glue can be dispensed at will for different products (round, linear,lattice etc.)

11

Main part

English interface option easy to operate

CCD positioning systemvisual positioningcompensation automatically,correct the deviation of PCB

Large size track,suitalbe for different size of PCB

Contactless high speed injection dispensing head,dispensing glue continuously with high efficiency

Intelligent dispensing head ensure good performance,high efficiency and lower glue wasting

Full time monitoring of glue volumeautoprompting low glue volume Dispensing head constant

temperature function,ensure the glue in liquid

Production Introduction

Concentrating: Because the lens has a strong ability to gather light, it is used to illuminate the road, not only the road is bright, but also clear (strong and clear).

Range: Due to the small dispersion of light, its light range is farther and clearer than that of ordinary halogen lamps (longer and clearer)

Penetrating power: Compared with the headlights using traditional lamp caps, the headlights with lens-type lamp caps have uniform brightness and strong penetrating power, so they have strong penetrating power in rainy days or foggy weather (strong penetrating power). , uniform brightness)

Why choose us?

We have a variety of speed placement machines to meet the customer's choice.

And our top speed has reached 500,000 CPH.

The software of the placement machine is independently developed by us, which

can better guarantee the use of customers. And we will also give customers high-tech software for free.

We can supply all the machines in the production line

Free installation and training.

One year warranty for the whole machine

Company profile

Shenzhen ETON automation equipment Co., Ltd., founded in 2011, is a company focusing on the research and development of SMT high-speed mounter and SMT peripheral automation equipment Manufacturing and process solution provider of production, sales and services. The company mainly focuses on multi-function machine, patch machine and special machine patch machine. It is mainly used for a variety of products, such as flexible lamp, bulb machine , and so on. The main reason for this difference is the different mounting technology. The mounting technology of special machine is group taking and group pasting. The multi-function machine can realize group take and paste and take and paste, because each head is controlled by an independent motor.

FAQ

FAQ

1.What can you company offer us?

A:Free warranty within one year .

2.Can you provide a complete production line machine for us ?

A:Yes,our company can provide for your.

3.Why we choose you company?

A:ETON has independently developed the world's first technological invention patents and proprietary technologies, including 9 invention patents, 12 software copyrights and 112 practical patents.

4.Can we visit the workshop?

A:If you want to visit the workshop and it's inconvenient for you to come, we can let you visit through video.

5.What is your delivery date?

A:The delivery date is about 20 date upon the full payment.
