

## 120 watt semi automatic stencil printer machine for LED bulb making

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: ET-S1200
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

#### Product Specification

- Name: Semi-automatic Stencil Printer Machine
- Module: ET-S1200
- Warranty: 1 Year
- Condition: New
- Scraper Speed: 0-100 Mm/sec
- Weight: 360kg

#### Company Advantage

##### ETON Company

- A leading manufacturer of automatic high-speed pick and place machine
- The largest high-tech LED light making machine manufacturer in China
- Obtained a number of intellectual property technologies, including 9 invention patents, 112 practical patents, 12 software copyrights

##### ETON Industrial Park

- There is 30000 square meters modern intelligent industrial parks equipped with an advanced processing and manufacturing center
- There are various types of machines, the fastest capacity reach 250000CPH, which is the fastest machine mounting speed in the world

##### ETON Team

- High service efficiency, there is service office in India.
- Quality First, Client-oriented, Continuous Improvement.
- 24 hours online for you to answer

## Product Description

### 120 watt semi automatic stencil printer machine for LED bulb making

#### Specifications

|                     |   |
|---------------------|---|
| Model               | ET-S1200                                |
| PCB size            | 1200×300 mm                             |
| Plate Area          | 1250×320 mm                             |
| Stencil Frame Size  | 470×370 mm 1300×550 mm (L×W)            |
| Positioning way     | positioning pin                         |
| Scraper Speed       | 0-100 mm/sec                            |
| Power               | 220V single phase, 50/60 HZ             |
| Power Consumption   | 120 W                                   |
| PCB plate thickness | 0.2-2.0 mm                              |
| Plate Trimming      | Front/back +/- 10mm Right/Left +/- 10mm |
| Printing Precision  | +/- 0.05 mm                             |
| Air supply          | 5-7 KGF/cm <sup>2</sup>                 |
| Weight              | 360 kg                                  |
| Dimension           | (L)1600 x(W)900 x(H)1650 mm             |

#### Features of semiautomatic stencil printer

The governor motor drive scraper, combining precision linear guide, ensure the printing precision;

Printing scraper can rotate 45 degrees of fixed upwards, printing plate and scraper cleaning and replacement;

The scraper holder can adjust forward and backward, to select the suitable printing position;

Combined printing platen, has a fixed groove and positioning PIN, easy installation and adjustment, it is used for single and double panel printing;

Steel bar-mesh mobile school edition way, combined with the printing machine (PCB) XYZ calibration adjustment, convenient and quick.

Can be set unidirectional and bidirectional multiple printing methods.

#### ETON Advantages

Efficient team: The best suggestions of full SMT line equipment according to your budget and site.

Competitive price: We are directly manufacture of the ETON pick and place machine, so we can give you the best competitive price with high quality materials.

High quality: We have strictly quality control during all production from raw materials to the finished machine.

High efficiency: All machines parts are made by ourselves, so it's convenient to control the time schedule and quality timely.

#### Packaging

Packaging: standard is plastic film wrap the LED SMT machine, then load into one 20" container; Wooden box packing can be customized.

Delivery: 35-40 days after 30% T/T prepayment, buyer should come to inspect when we do test running, after testing, pay the 70% balance before delivery

First step

All machines delivery to abroad will use Foam wrap, to Protect the machine from collision

Second step

The second layer will be wrapped with stretch film to prevent the equipment from getting wet

Third step

Vacuum paper packaging and moisture-proof bag, so that the machine can be kept dry during

#### Service

Maintenance Period: 1 year.(whole machine, any parts need to be repaired or replaced will be free)  
Upgrade the software will be free  
Visit customer regularly and gather information.  
Provide latest information about technology and equipment.

#### FAQ

**Q: What is the payment method?**

A: We support T/T payment.

**Q: When is the delivery time?**

A: Delivery within 30 days after payment.

**Q: What is the shelf life?**

A: 1 year warranty.

**Q: What are the main LED products our machines for?**

A: There are different machines in our company and different machines apply to different LED lights. The main products we can apply:bulb tube strip lamp panel. Down light,streetlight,ceiling light.wall washer light and so on.
