

LED Industry SMT Pick And Place Equipment 250000 CPH For LED Strip Light

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC,SIRA,CE
- Model Number: HT-T9
- Minimum Order Quantity: 1PCS
- Packaging Details: WE USE VACUUM WOODEN BOC PACKAGE
- Delivery Time: 5-8 work days
- Payment Terms: L/C, T/T
- Supply Ability: 50PCS/Month

Product Specification

- Model: HT-T9
- Warranty: 1 Year,12 Months
- Name: SMD Chip Mounter,SMT Pick And Place Machine,SMT Chip Mounter
- Application: SMD Production Line,SMT Production Line,for SMT Machine
- Power Supply: 380V 50HZ
- Condition: New,100% Original,Brand-new
- Product Name: Place Machine\ LED Mounter\LED Assembly Machine,Automatic SMT Mounting Shooter,SMT Shooter Machine
- Weight: 1700KG
- Mounting Speed: 250000 CPH
- Usage: Circuit Board Assembly,SMT Mounting Machine,SMD
- Dimension: 3100*2300*1550mm
- Highlight: Led Strip pick and place equipment

Product Description

SMT pick and place making machine for strip light in led industry

Parameter

Dimension:3100*2300*1550mm

Total Weight:1700 kg

PCB Length Width:250*any length

PCB Thickness:0.5-1.5mm

PCB Clamping:Vacuum adsorption, cylinder splint, adjustable track width

Mounting Mode:Group picking and separately placing

Mounting speed: 200000~250000 CPH

Repeat mounting Precision:±0.02mm (Repeat precision)

Mounting Height:≤5mm

Components:LED 3014/ 3020/ 3528/ 5050 and capacitors, resistors, bridge rectifiers, etc.

Components Space:0.5mm

No. of Feeders Station:68pcs

No. of head:68pcs

Power:380AC 50 HZ

Power Consumption:6kw

Brief introduction

HT-T9 MAIN PARTS

(1) Most of our customers are interested in why this machine can reach so high speed. You know it called mounting module. HT-T9 also has two modules, but one module has 2 mounting parts and each mounting parts has 17 heads. Totally 68 mounting heads. That make HT-T9 can pick and place components such quickly. This is the main reason why HT-T9 can reach 250000CPH and get higher mounting speed.

(3) This machine, even the structure is similar between HT-F7S and HT-T9. But look the part guide rail. HT-F7S is hollow but HT-T9 is solid. That makes HT-F7S need PCB jig to produce LED strip. But HT-T9 no need this. So it solve the long strip PCB jig. In addition, special software makes HT-T9 has the function for roll to roll strip.

(4) So why we said HT-T9 is the most popular model. Cause it is specialized model for the most popular LED products roll to roll strip. No matter 5M strip, 25M strip, 50M strip or even 100M strip light, You can produced by HT-T9. HT-T9 is really a very fantastic model

(5) Someone maybe wonder if the machine is difficult to operate? Don't worry about this, our software are all research and independent by our company engineer, so we can teach you operate it and up-graded for free, very easy to control. In particular, it is EVOC brand, the Chinese top one!

FAQ

Q: How many hours does the machine can operate per day?

A: Machine can work whole day. But for longer using life, we suggest you to have 1 hour or 2 hours off per day.

Q:Is the machines easy to operate?

A:Machine is very intelligent and easy to operate, like the intelligent phone, also the software is made by our company, so we know how to make it more intelligent and operate friendly.
