

25W Cph Pick And Place Machine LED Strip Light Assembly Machine With 68 Heads

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC, CE, SIRA, ISO
- Model Number: HT-T9
- Minimum Order Quantity: 1 set
- Packaging Details: standard wooden box package
- Delivery Time: 15 work days
- Payment Terms: T/T, T/T
- Supply Ability: 50 sets per month

Product Specification

- Product Name: Pick And Place Machine
- Brand: ETON
- Dimension: 3100*2300*1550
- PCB Size: 250mm*any Length
- Pcb Clamping: Vacuum Adsorption, Syllinder Splint, Adjustable Track Width
- Optimal Speed: 250000cph
- No. Of Nozzles: 68pcs
- Power: 6kw
- Highlight: **68 Heads LED Pick And Place Machine ,
25W Cph LED Pick And Place Machine ,
LED Strip light assembly machine**

Product Description

LED Strip light assembly 25W cph pick and place machine with 68 heads

What is ETON T9?

ETON T9 pick and place machine with 68pcs heads, optimal speed can reach 250000cph, it's mainly for any length flexible strip light. To provide customers the most affordable solution with higher flexibility. This machine would be as easy as a mobile phone everyone could master it easily.

Parameter

Model	HT-T9
Dimension	3100*2300*1550mm
Total weight	1700kg
PCB length width	250mm*any length
PCB thickness	0.5-1.5mm
PCB clamping	Vacuum adsorption, cylinder splint, adjustable track width
Mounting mode	Group picking and group placing
Mounting precision	±0.02mm
Mounting speed	200000-250000 CPH
No. of feeders station	68PCS
No. of head	68PCS

The feature of pick and place machine

- 1, Mount: Min mount 0603 SMD LED components. In addition to all the planar LED plane, other electronic components, such as resistors, IC, bridge rectifier etc
- 2, Precise positioning: Accuracy less than 0.02mm. Five cameras (1 mark camera, 2 nozzle adjustable cameras, 2 feeder station adjustable cameras), this machine mainly for making any length flexible strip light.
- 3, High precision: X, Y, Z axis are equipped with high-end magnetic linear motor + servo motor, enhance the smooth coordination of equipment movement, reduce abnormal noise, greatly improve the accuracy and speed of the patch.
- 4, SMT specifications: platform 250mm*any length. applicable to any length strip light, without clamps
- 5, the visual system, visual programming software online programming, which is of high precision digital camera camera, there is no need to manually input elements and positioning coordinates; using visual camera automatic identification, to ensure the accuracy of mount.
- 6: the software interface is simple and elegant, functional and practical, visual software online programming, display all coordinates in the imposition software, and fine-tuning of the coordinates of the point, in order to achieve high precision mount, without manual input element coordinates, fast and convenient, simple and clear

Application industries and products:

Home appliance industry; automation industry; LED lighting industry; electronic product industry; information technology industry; medical industry; etc.

Products: For 5m, 10m, 15m, 25m, 50m, 75m, 100m, etc. Any length flexible strip light.

ETON - HT-T9 25m full automatic No-wire flexible strip Production Line

Why choose us?

1. More than 15 years experience in SMT&LED industry;
2. Can provide whole line solution and equipment;

3. Free installation, debugging and training;
4. Free upgrade software;
5. Provide your new factory construction advice

ETON China SMT machine industry leader

Our advantage

-  **Efficient team:** The best suggestions of full SMT line equipment according to your budget and site.
-  **Competitive price:** We are directly manufacture of the ETON pick and place machine, so we can give you the best competitive price with high quality materials .
-  **High quality:** We have strictly quality control during all production from raw materials to the finished machine.
-  **High efficiency :** All machines parts are made by ourselves, so it's convenient to control the time schedule and quality timely.

FAQ

1. Q: Which language is the software? Do you provide software updates?

A: English or Chinese. Free to upgrade software for lifetime.

2. Q: This is the first time I use this kind of machine, is it easy to operate?

A: Yes. There are English manual and guide video that show you how to use machine.

If there is any doubt in the process of operating the machine, please feel free contact us.

We also provide overseas on-site service. Can we'll arrange our overseas engineer to your factory for free installation and training

3. Q: Can we customize the machine?

A: Of course. All of our machines can be customized.

4. How about the warranty?

A: We support one year warranty. We will help you in time. All the spare parts will be provided free of charge for you within the warranty period.
