

## Digital Adjustable SMT Solder Paste Mixer For SMT Pick And Place Machine

Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

### Basic Information

- Place of Origin: china
- Brand Name: ETON
- Certification: ccc, ce, sira
- Model Number: None
- Minimum Order Quantity: 1 set
- Packaging Details: standard wooden box
- Delivery Time: 15 work days
- Payment Terms: T/T
- Supply Ability: 50sets per month

### Product Specification

- Product Name: Solder Paste Mixer
- Dimesion: 400\*400\*420
- Weight: 35KG
- Delivery: Shipping
- Stiring Time: 1-99 Minute Digitally Adjustable
- Operation Method: Light Touch Button For Easy Operation
- Highlight: **Adjustable SMT Solder Paste Mixer ,  
Digital SMT Solder paste mixer**

## Product Description

### smt solder cream mixing equipment/solder paste mixer for smt pick and place machine

#### Features

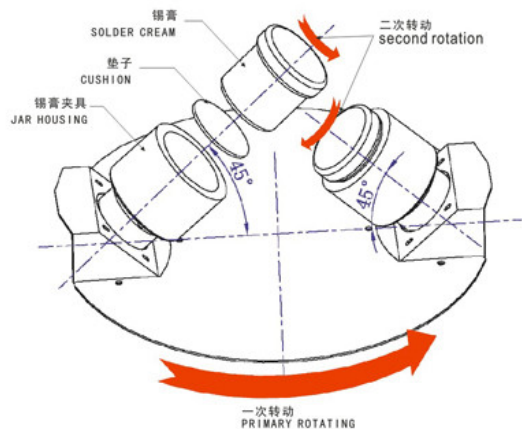

1. Place the solder paste at 45 degrees and rotate along the axis, and the solder paste will no longer adhere to the lid of the can.
2. Double safety device to ensure personal safety.
3. Stirring has the effect of removing air bubbles at the same time.
4. The dedicated control circuit fully considers the process control of solder paste stirring.
5. The speed ratio has been verified by practice to avoid the impact of tin powder and excessive temperature rise on the quality of solder paste.

#### Specifications:

Item	Solder paste mixer
Dimension	400x400x420mm
Weight	About 35KG
Operating Voltage	AC 220V 50Hz 60Hz >60W
Operating speed	Motor 1350 RPM revolution: 1000RPM Rotation: 500PRM
Working capacity	500 g. Syringe, red plastic tube, etc. the fixture can be customized.
Stir two cans of solder paste at the same time	500g
Stiring time	1-99 minute digitally adjustable
Operation method	Light touch button for easy operation
Fixture function	Universal fixture for all kinds of brand solder paste cans
Running noise	Low running noise <20dB

#### Precautions

- 1: Do not place the machine in a humid, high temperature place, keep the surface of the machine clean.
- 2: Be careful when handling the machine, and the working place of the machine should be stable and clean.
- 3: When installing solder paste cans, the staff should lock the locks to prevent accidents.
- 4: Do not place too heavy things on the top cover of the machine to prevent the protection switch from being crushed.
- 5: The solder paste can can be taken out after the motor has completely stopped to prevent the operator from being injured.
- 6: Sealed bearings, do not need frequent lubrication and maintenance.

#### Services

Provide whole line solutions and equipment;  
Provide operation manuals and tutorial videos;  
Provide real-time machine production status;  
Regularly visit customers to understand machine usage;  
Share the company's new products and industry trends

#### ETON SMT LINE SOLUTION

## Service

1. Maintenance period :one year
2. Free installation and training
3. Visit clients regularly and gather information
4. Provide latest information about technology and equipment

## Payment

We accept  
TT payment

## Delivery

Within 30 days after  
receiving the deposit!

## FAQ

### 1. What's the way of shipping

These are all heavy machines: we suggest u use cargo ship

### 2. Is it hard to use these machines?

No, not hard at all. For our previous clients, at most 1 days is enough to learn to operate the machine.

### 3. Can u provide other smt machines to me?

Yes, of course. We're China Top.1 smt high-speed pick and place machine manufacturer, and we also make auto stencil printer, glue dispenser for led lens, smt peripherals equipment, etc.
