

Led light SMT machine automatic conveyor for bulbs pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE , ISO , CCC
- Model Number: C500
- Minimum Order Quantity: 1 unit
- Packaging Details: Vacuum wooden packing
- Delivery Time: 15-30 days
- Payment Terms: T/T, L/C
- Supply Ability: 50 Unit per month

Product Specification

- Name: SMT Conveyor
- Brand: ETON
- Transport Height: 900±20 Mm
- PCB Size: 500*350 Mm
- Transmission Direction: Single (left → Right)

Product Description

Led light SMT machine automatic conveyor for bulbs pick and place machine

Product features

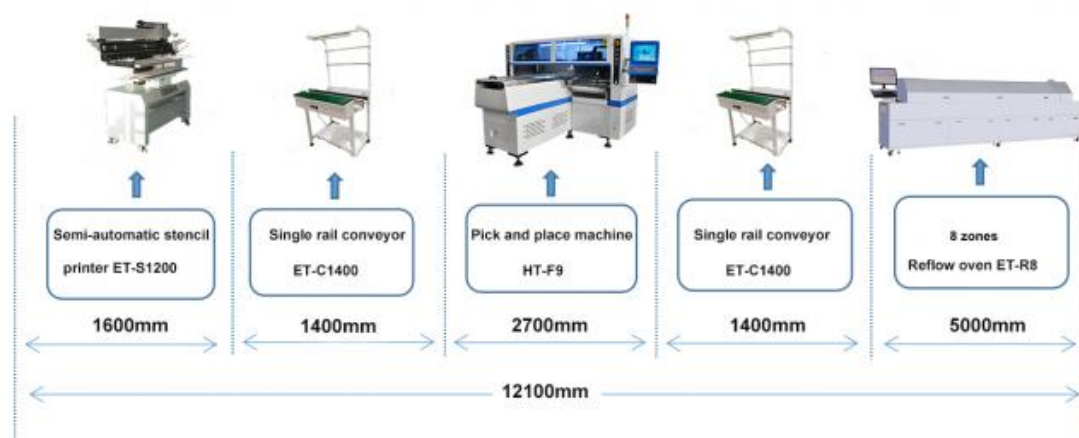

The movable working table, Visible Board document and lighting rack are arranged on the basis of the conveyor;
The lighting brightness, operation height and other user-friendly design, the operation is more efficient, convenient and practical;
Green flat imported anti-static transmission belt, durable, easy to replace;
Sheet metal weighted structure, overall stable, not easy to shift;
PLC control system, through SMEMA communication.

Technical parameter

Description	This equipment is used to transfer the circuit board in the production line
Transport height	900±20mm
Power consumption	Single-phase AC110 ~ 220V (optional), up to 50 volt amperes
Transport speed	0.5 ~ 20 meters per minute (or customer specified)
Conveyor belt type	4mm wide flat belt
Steel frame structure, rail length	L=500
Width adjustment range	50 350 mm
PCB size	500*350 mm
Transmission	5MM flat belt conveyor
Speed	Adjustable from 0.5 to 9 m/min
Motor	One set of 25 W stepper motor
Control	Industrial control panel
Transmission Direction	Single (left → right)
One section of control, two Sensors	

SMT production line

The conveyor is mainly used to connect all kinds of equipment, play the role of transmission, convenient manual plug-in, inspection and so on. It is needed in either full automatic production line or semi automatic production line.

SMT machine and related equipment

SMT pick and place machine is the main and important machine in SMT production line; SMT peripheral equipment includes stencil printer, reflow oven, loader, unloader, stacking loader, AOI, SPI etc.

ETON Automation Equipment Co., Ltd.

✓ High precision

✓ High capacity

✓ High quality

✓ Stencil printer

✓ Pick and place machine

✓ Conveyor

✓ Reflow oven

Company profile

1. ETON has own 52000 industrial park, 7 buildings, over 500 employee; Independent design, R&D, production, assembly; production and manufacturing capacity is very strong, Guaranteed quality, Got 133 patent and certificate.
2. ETON has Over 10 years of specialized in the production of LED lights to provide SMT services, Experienced and mature.
3. ETON has India local engineers visit your factory for free installation and training.
4. F7S is more intelligent and faster, support software free upgrade for machine whole life, the cost can be recovered quickly.
5. ETON is a famous manufacturer of SMT pick and place machine, many big brand all using our machine, prove that we are very advantageous in the LED industry and electronics industry. Like RK, KONKA, POLYCRB, SURYA, UNISTAR, TCL, etc

Shenzhen ETON Automation Equipment Co., Ltd.

ETON was founded in 2011, Jiangxi intelligent Industrial Park was used in 2020. And ETON is a manufacturing and process solution provider focusing on R&D, production, sales and service of SMT high-speed pick and place machines and SMT peripheral automation equipment.

ETON has obtained a number of intellectual property technologies, including 9 invention patents, 112 practical patents, 12 software copyrights.

ETON 's produces have exported more than 20 countries and regions, including Egypt, India,Turkey, Russia, Brazil, South Africa and so on.

ETON is committed to providing quality service for customers and determined to become the world's most competitive manufacturer and service provider of pick and place machine and high-end electronic testing equipment.
