

SMT single rail Loader machine Display control true color touch screen

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: ET-L390
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the downpayment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Name: SMT Loader Machine
- Model: ET-L390
- Warranty: 1 Year
- Condition: New
- Max. PCB Size: (L)530*(W)390mm
- Function: Automatically Send Board

Product Description

SMT single rail Loader machine Display control true color touch screen

Specification

Item	ET-L390 send board machine
Dimension	L1500*W920*H1200±30mm
Turnover box specifications	(L)535*(W)460*(H)565mm
Maximum size of PCB	(L)530*(W)390mm
Direction	Right to left / left to right
Lift platform pitch selection	10,20,30,40
Transmission height	H=920±30
Controller	Mitsubishi PLC programmable controller
Function	Automatically send board
Operation control panel	Display control true color touch screen
Pneumatic Components	Push plate cylinder position, adjusted by screw

Installation notes

- 1.First of all, determine the direction of the plate, generally when the brick machine, mixer a line installed with side plate; brick machine, mixer placed vertically using the back plate.
- 2.Make sure that the oil cylinder or other moving mechanism is not above the pallet, which will affect the lower pallet. If there is any influence, move the pallet and feed pallet away.
- 3.Confirm the partner of non-fired brick machine-the square tube that fixed sprocket position in front of the upper plate machine does not touch the belt machine; 4.Under the possible circumstances, as far as possible on the plate next to the left position, convenient pallet placement, easy to use.

ETON Profile

ETON GROUP

ABOUT US

Shenzhen ETON Automation Equipment Co.,Ltd. was founded in 2011. ETON is the leading manufacturer of global optoelectronic highspeed pick and place machine,Full SMT line. the products are exported to more than 20 countries and regions, including South Korea,India,Vietnam,Tunisia,Egypt, Turkey,Russia,Brazil etc.

Testing workroom

Exhibition

ETON industrail park

ETON mission: professionalism, excellent technology, sharing results.

ETON goal: to create a national brand and build an international Chinese enterprise.

ETON purpose: to create value for customers and create benefits for the society.

ETON vision: determined to become the world's most competitive manufacturer and service provider of pick and place machine and high-end electronic testing equipment.

Packaging

All machines are packed with vacuum and wooden packing

Step1:Film packaging.

Step2:Vacuum packaging.

Step3:Wooden box packaging

You can trust us, because we have professional and standard packaging to protect the machine.

First step

All machines delivery to abroad will use Foam wrap, to Protect the machine from collision

Second step

The second layer will be wrapped with stretch film to prevent the equipment from getting wet

Third step

Vacuum paper packaging and moisture-proof bag, so that the machine can be kept dry during transportation to prevent moisture

FAQ

Q: It's hard to use the machine?

A: Machine is very intelligent and easy to operate, like the intelligent phone, also the software is made by our company, so we know how to make it more intelligent and operate friendly.

Q:How long is the time of delivery?

Generally, the test delivery period is one month.

Q:If my order is very urgent, how long you can proceed?

We have helped many clients with their urgent demand. If your order is urgent, please check with our specialists to see if we can help.

Q:How are the products packed for sea shipment?

Most of the products have their unique packing, Then we put them into a carton. The cartons are sealed with tape.

Q:How can you make sure that the products won't be damaged or wet?

We take multiple measures to protect the products. They are first packing with individual. We put them into a carton and wrapped with plastic film and sealed with tape to keep the cartons in position and protect them from water.
